### I. LEGAL RESPONSIBILITIES AND AUTHORITY

# A. State and Local Statutory Authority

### **State Statutory Authority**

The Public Health Code Act 368 of 1975 provides the legal foundation for the state and local health department to exercise its powers and duties within the state and local jurisdiction.

# **Powers and Duties**

Under the Public Health Code Act 368 of 1978, 333.2433 sec. 2433 Local health department; powers and duties generally. (1) A local Health department shall continually and diligently endeavor to prevent disease, prolong life, and promote the public health through organized programs including prevention and control of environmental health hazards; prevention and control of diseases; prevention and control of health problems of particularly vulnerable population groups; development of healthcare facilities and health services delivery systems; and regulation of health care facilities and health services delivery systems to the extent provided by law.

Under Part 24 of the Public Health Code the Local Health Officer has many of the powers granted to the state health director to respond to local emergencies within the area served by the local health department. For example, MCL 333.2451 authorizes the local Health Officer to issue an imminent danger order within the local health department jurisdiction.

The Public Health Code sets forth the specific authority given to the local public health department, Health Officer and Medical Director and describes its specific powers and duties to protect public health as it relates to the above general provisions.

In order to carry out specific emergency orders and/or other powers and duties, the Grand Traverse County Health Department (GTCHD) has access to legal counsel through the Grand Traverse County Prosecutor's Office, both the 13th Circuit Court and the 86th District Court for issuance of warrants or other legal documents and the support of state and local law enforcement. The Prosecuting Attorney, as the chief civil counsel for the county, assists public health and its officials in exercising legal authority in response to health threats and other public health matters. The Health Department has well established partnerships with the Grand Traverse County Prosecutor's Office, Sheriff's Office, the Courts and Emergency Management, which is a Division of GTCHD, all under the general jurisdiction of the Grand Traverse County Board of Commissioners and county Administrator.

### **Programs and Services**

Part 2235 of the Public Health Code gives broad authority to MDHHS to assign primary responsibility for the delivery of services to Local Health Departments (LHDs) who meet the requirements set forth in Part 24 of the Public Health Code: see MCL 333.2235 et seq. A local health department that meets the requirements of part 24 shall act as the primary organization responsible for the organization, coordination, and delivery of services and programs established by the department or required under the code, in the area served by the local health department. See: MCL 333.2235.

The GTCHD provides programs and services under the Comprehensive Planning, Budgeting and Contracting Agreement from MDHHS and complies with all program requirements provided in the state and federal mandates.

Agreements with Local health departments to administer

#### **Local Statutory Authority**

GTCHD is a county health department established by the Grand Traverse County Board of Commissioners pursuant to Section 2413 of the Michigan Public Health Code, MCL 333.2413. Additional local statutory authority includes:

# Environmental Health Regulations for GTCHD Authority, Jurisdiction, Purpose, and General Definition

Establishes rules, regulations, and ordinance for the protection of public health, safety and welfare, to prevent the spread of disease, to prevent sources of contamination of property, public health and the environment and to otherwise properly safeguard the public health of Grand Traverse County residents.

Effective January 1, 1964 – Amended January 1, 1972, Amended December 31, 1989, Amended May 25, 1994

### **Grand Traverse County Animal Control Ordinance**

County ordinance to establish Animal Control's powers and duties, define regulations for licensing, vaccination, responsibilities of dog owner(s), kennel inspection and licensing, and provide penalties for violation of this ordinance.

Approved by Grand Traverse County Board of Commissioners September 29, 2004, Rescinded in their entirety previous ordinance(s) #1 dated January 1, 1961 and #4 August 1, 1972, or any amendments thereto. Animal Control Ordinance

Grand Traverse County Soil Erosion and Sedimentation Control Ordinance County ordinance to provide for soil erosion and sedimentation control; definitions; application requirements; soil erosion and sedimentation control permits; soil erosion and sedimentation control plans; inspections; building and other permits; penalties; enforcement; construction; severability; and repeal.

Approved by Grand Traverse County Board of Commissioners April 4, 2018. Rescinded in their entirely previous ordinance #25 dated September 24, 2003 and any amendments thereto. Soil Erosion and Sedimentation Control Ordinance

#### **Medical Examiner Statutes**

Act 181 of 1953 <a href="http://legislature.mi.gov/doc.aspx?mcl-Act-181-of-1953">http://legislature.mi.gov/doc.aspx?mcl-Act-181-of-1953</a>
An act relative to investigations in certain instances of the causes of death within this state due to violence, negligence or other act or omission of a criminal nature or to protect public health; to provide for the taking of statements from injured persons under certain circumstances; to abolish the office of coroner and to create the office of county medical examiner in certain counties; to prescribe the powers and duties of county medical examiners; to prescribe penalties for violations of the provisions of this act; and to prescribe a referendum thereon.

# B. Governing Entity Relationship

GTCHD is a department of Grand Traverse County Government, pursuant to the authority set forth in Section 2413 of the Michigan Public Health Code, MCL 333.2413. GTCHD reports to the Grand Traverse County Board of Commissioners through bimonthly full board meetings. The Health Officer is appointed by the Grand Traverse County Board of Commissioners, but reports to the County Administrator on a day-to-day basis. The Health Officer addresses the Board of Commissioners for specific approval of ordinances, budgets and major purchases, regulatory issues, policies, contracts, and other similar matters. The Grand Traverse County Board of Commissioners' authority to establish such procedures is set forth at MCL 46.11 et seq.

The Health Officer provides a monthly report of activities to the Board of Commissioners via the County Administrator's report. GTCHD has a fund in the County budget and is appropriated annually (January 1 – December 31) by the County Board of Commissioners. The Commission also approves the staffing plan of the Grand Traverse

County Health Department. The County exacts an Indirect Cost to the Grand Traverse County Health Department for support services such as information technology, accounting, human resource (personnel), building maintenance, county administrative and finance support *et cetera*. The buildings that the Grand Traverse County Health Department uses are owned by the County and rented back to the Health Department.

### C. Employee Civil Liability Defense & Indemnification

Defense and indemnity coverage for civil liability of the employees of the GTCHD while working within the scope of their county duties is provided through Michigan Municipal Risk Management Authority Liability (MMRMA), a public entity self-insurance pool that provides liability and property coverage to municipal governmental entities and is authorized pursuant to Michigan Compiled Laws 124.1 et. seq.

A current copy of the Certificate of Liability Insurance from the MMRMA and Motor Vehicle Physical Damage Coverage Document is included as (Attachment 1). The complete Grand Traverse County liability coverage document will be available for auditors at the site visit. If MDHHS auditors have specific questions, they can contact Marissa Milliron, GTCHD Director of Finance and Administrative services, at 231-995-6102.

# D. Food Service Sanitation Program

All Food Service Sanitation Program responsibilities in Grand Traverse County are carried out by GTCHD Environmental Health Division staff through its Food Sanitation Program which inspects and licenses public food preparation locations such as restaurants and temporary food service locations. This program also investigates complaints and suspected foodborne illnesses.

# E. Blood Borne Pathogen Exposure and Chemical Hygiene Plans

Safety training for all Health Department employees is a top priority. All essential safety plans are updated annually and reviewed at a mandatory staff "Safety Day" meeting. Key health department staff are also integral to Grand Traverse County's blood borne pathogen plan.

The 2018 Health Department Blood Borne Pathogens Exposure Plan is include as Attachment 2 and the Chemical Hygiene Plan is included as Attachment 3.

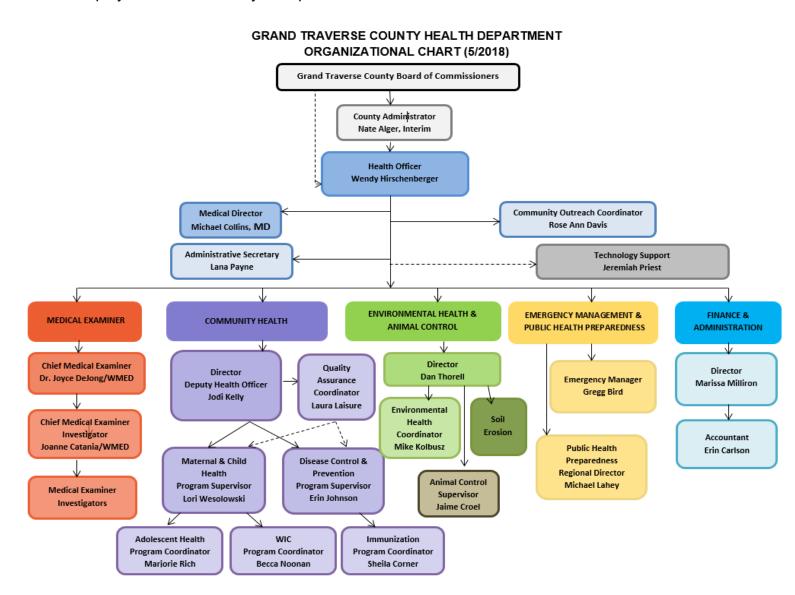

### II. LOCAL HEALTH DEPARTMENT ORGANIZATION

# A. GTCHD Organizational Chart

GTCHD is organized into five divisions:

- 1. Medical Examiner (Leelanau and Grand Traverse Counties).
- 2. Community Health
- 3. Environmental Health, Soil Erosion and Animal Control
- 4. Emergency Management and Public Health Preparedness
- 5. Administration and Finance

Each division is overseen by a Division Director who reports to the Health Officer. The GTCHD organizational chart below includes official position, lines of authority and displays the names of key staff positions.

The table below lists the programs within each Health Department division.

	Grand To	raverse County Health De Departments/Programs	•	
Medical Examiner Division	Community Health Division	Environmental Health & Animal Control Division	Emergency Management & Preparedness Division	Administration & Finance Division
_	- (Quality Assurance, Quality Impr	ovement, HIPAA Compliance, R	_	Informatics)

	Immunizations Communicable Disease Surveillance & Control			
	STD & HIV Program  Court Ordered Testing  Medicaid Outreach			

# B. Board Approval of Plan of Organization

GTCHD's Plan of Organization approval took place at the June 6th, 2018 Grand Traverse County Board of Commissioners meeting with immediate effect.

- Meeting agenda's and minutes and resolution of approval are available for review at: https://www.grandtraverse.org/agendacenter
- o Signed LHD Plan of Organization Approval Form is included as Attachment 4.

# C. Annual Operating Budget and Staffing Levels

The Fiscal Year 2018 General Appropriations Act (budget) for County operations was approved by the Grand Traverse County Board of Commissioners on November 15, 2017 and was presented in conformance with Public Act 2 of 1968 and Public Act 621 of 1978, known as the "Uniform Budgeting and Accounting Act".

Please see resolution #131-2017 for details of approval. http://www.grandtraverse.org/AgendaCenter/ViewFile/Agenda/ 11152017-1178?packet=true

Under Section 16 of the General Appropriations Act:

- The legislative body of each local unit must pass a general appropriations act (budget) for the general fund and each special revenue fund.
- o The general appropriations act must:
  - State the total mills to be levied (truth in budgeting act);
  - Include amount appropriated for expenditure and to meet liabilities for ensuring fiscal year in each fund;
  - Include estimated revenues by source in each fund for the ensuing fiscal year;
     and
  - Be consistent with the Uniform Chart of Accounts issued by the State Treasurer

The budget is organized by fund type and contains a summary of revenues by type (grants, taxes, county appropriations, fees etc.) and expenditures by type (personnel services, commodities, contractual services, other) The GTCHD Health Fund is listed as 222 and program specific budgets are listed from 100-726.

- GTCHD's operating budget for fiscal year 2018 (January 1 December 31, 2018) included total revenue and expenditures of \$6,618,181
- Staffing funded for Public Health Services in 2018 equals 60.40 FTEs
- To view the 2018 Grand Traverse County Budget

# D. Audit Findings, Responses and Corrective Actions

The financial statements of GTCHD were independently audited for the fiscal year 2016 and the report is dated June 28, 2017. Auditing was performed by Gabridge & Company, PLC. The independent auditor reported findings related to some County operations, but no findings or issues were noted for the Health Fund, therefore no evidence of corrective action was required for GTCHD. Documentation of the GTCHD portion of the audit is in (Attachment 5).

A complete copy of the Grand Traverse County Audit can be found at <a href="http://www.co.grand-traverse.mi.us/Archive.aspx?AMID=45">http://www.co.grand-traverse.mi.us/Archive.aspx?AMID=45</a>

A Michigan Department of Health and Human Services audit of the Grand Traverse County Health Department Women, Infant and Children (WIC) and Family Planning Programs was conducted for the period of October, 2013 through September 30, 2014. The final report was issued October 13, 2015 and contained the following: description of the agency; funding methodology; purpose; objectives; scope and methodology; conclusions, finding and recommendations; Statements of Grant Program Revenues and Expenditures; and Corrective Action Plans. The complete audit report, including findings and recommendations and Corrective Action Plans are also included in (Attachment 5).

# E. Information Technology Capacity

GTCHD distributes public health information to key stakeholders, staff and the public utilizing many forms of media (print and electronic methods). GTCHD distributes critical health alert information through a mass fax protocol and the internet via the State of Michigan's Health Alert Network. Other public health information is distributed by email, website postings (<a href="www.gtchd.org">www.gtchd.org</a>), social networking (Facebook, Twitter and YouTube), fax, telephone, postal mail, news releases, Health Alerts and Munson Health Center's weekly medical provider e-newsletter. This multi-distribution approach enables GTCHD to distribute critical and non-critical information in regards to public health. Public health information distribution is designed to communicate important information internally and externally to protect and preserve the health of communities.

All staff has personal computers which have internet capabilities in order to access program specific software, Google Apps, Microsoft Office application suite and other resources. Staff who work in the field on a daily basis have laptops, cell phones or smartphones for access, as needed, throughout the day. GTCHD uses a web based email system (Google) to quickly communicate with staff and other community partners. All administrative and management staff has access to electronic payroll via the AS400.

To maintain security of our secure network, the county utilizes Google Apps with SSL to provide encrypted web based email, spam filtering, and email antivirus filtering. Instant messaging/chat is not enabled in Google Apps. A Cisco Ironport appliance is used to filter and monitor Internet access and also blocks malicious web sites. BitDefender Endpoint Security is utilized on computers and servers for antivirus protection, malware protection and to protect file storage. Commvault software is utilized for server data backup. The county also utilizes Netech Corp. as our network support vendor to configure firewalls and intrusion prevention. The county Information Technology staff troubleshoots and manages network systems on a daily basis.

The following technology resources are available and utilized by GTCHD:

### **Community Health Division Technology**

- Access to Language Line (translation services for 20 languages). Two bilingual staff members who speak Spanish and provide translation services for clients.
- Michigan Care Improvement Registry (MCIR)
- Michigan Disease Surveillance System (MDSS)
- ATT Access for the Deaf
- All staff has personal computers which have internet capabilities used to access several databases, including the Michigan Care Improvement Registry (MCIR), the Michigan Disease Surveillance System, CHAMPS, Powerchart Electronic Health Record, Mitchell and McCormick Electronic Health Record Software, MI-WIC Software, SWORD Solutions.
- The electronic medical records system (Mitchell and McCormick) allows staff to collect, access, store, and transfer client information between offices. This system is also capable of uploading data to external databases such as MCIR.
- Rapid Assessment for Adolescent Preventive Services (RAAPS) through
   Possibilities for Change for Adolescent Clinic staff to support them in addressing the risk behaviors impacting health, well-being, and academic success in youth.
- Broadcast FAX capabilities with pre-programmed key stakeholders is used by each division for "Public Health Alerts" which allows the department to blast fax to local physicians, veterinarians, infectious disease doctors, hospital emergency department, walk-in clinics, schools, media outlets, and other various agencies that benefit from public health information sharing.
- A voice-over internet protocol is used to send voice and data efficiently within the jurisdiction. Staff has voice mail to receive messages when they are out of their office, with the capability to retrieve messages from cell phones, landlines, or other health department offices.

### Websites, Social Media and other Static Communication Technology

- GTCHD utilizes a website, <u>www.gtchd.org</u> that allows the general public to access educational materials, receive important notices and alerts, download application and registration forms and access information from other health resource websites.
- Facebook Page(s) and associated Twitter accounts:
  - GTCHD- www.facebook.com/GTHealthDept?ref=aymt\_homepage\_panel
  - Adolescent Clinic https://www.facebook.com/KtownClinic/
  - Breastfeeding Support- https://www.facebook.com/GTBreastfeeding/
  - Emergency Management- <a href="www.facebook.com/GTCemergency?fref=ts">www.facebook.com/GTCemergency?fref=ts</a>
  - Water Safety Network- <a href="www.facebook.com/playitsafeinthewater?fref=ts">www.facebook.com/playitsafeinthewater?fref=ts</a>
  - Animal Control- <u>www.facebook.com/Grand-Traverse-County-Animal-Control-</u> 181433922429031
- Seasonal content for programs via TV displays in waiting rooms
- Grand Traverse County Health Department Annual Report
- News Releases to the Press
- Interviews with Television and Radio Stations
- Grand Traverse County Website <u>www.grandtraverse.org</u>

### **Training and Staff Education Technology**

- Webcasts using e.g. Adobe Connect, GotoWebinar, Mediasite, etc.
- Audio Visual Technology for communication and planning between the health department and other agencies
- Michigan Child Care Collaborative (MC3) MIHP monthly group case consultations with University of Michigan Behavioral Health Consultant via BlueJeans video conferencing system.
- Planning meetings, partner collaborative meetings, etc. Via Skype, GoToMeeting, and teleconferencing.
- Multiple downlinks for staff training; e.g. UM Injury Center, MDHHS-Maternal-Child-Health, Michigan Breastfeeding Network, MDHHS-Michigan Home Visiting Initiative/Infant Mortality, MSU Michigan Center for Rural Health, etc.
- Access to Emergency Preparedness broadcasts, etc.
- Courses.MIHEALTH.org: WIC Civil Rights, WIC Training modules, Infant Safe Sleep, What is Children's Special Health Care Services, Resilience, Smoke Free Baby and Me, etc.
- ProTrainings for CPR recertification
- MI-TRAIN access: FEMA ICS Training Modules
- o CDC Public Health Grand Rounds, health alerts, special reports, and website
- OSHA-MIOSHA website

### **Emergency Management and Public Health Preparedness Technology**

### **Emergency Management**

- CodeRED emergency mass notification system to notify residents of the county about imminent threats to health and safety and other emergency situations. Notifications can be received in a variety of ways, including cell, home and work telephones, and by text messaging and/or email. The system can notify well defined areas, like neighborhoods or buildings if there is an immediate threat or the entire county for weather related emergencies etc.
- IPAWS (FEMA's Emergency Alert System)
- Web EOC (MICIMS)
- o 800 MHZ Radios
- Cell Phones (with digital cameras, texting capabilities)
- Landline Telephones
- Motorola Talk-abouts
- ATT Access for the Deaf
- Local access to Channel 2 for emergency messages and public health information.

#### Public Health Preparedness

- Health alerts and issues are received from the Michigan Health Alert Network via email, telephones (landline and cell) or pagers. All key personnel are issued a cell phone and/or pager or given a stipend for cost reimbursement.
- Broadcast FAX capabilities with pre-programmed key stakeholders is used by each division for "Public Health Alerts" which allows the department to simultaneously fax to local physicians, veterinarians, infectious disease doctors, hospital emergency department, walk-in clinics, schools, media outlets, and other various agencies that benefit from public health information sharing.
- Michigan HAN system
- Epi X
- Shared 800 MHZ Radio Standard Operating Procedure among local health departments of Northern Michigan Preparedness
- Cell Phones (with digital cameras, texting capabilities)
- Landline Telephones
- Local access to Channel 2 for messages, emergency and public health information.
- o CDC Public Health Grand Rounds, health alerts, special reports and website.
- o Local access to Channel 2 for messages, emergency and public health information.

#### **Medical Examiner Technology**

- Cell phones
- Laptops
- MDI Log- Medicolegal Death Investigation software
- Telemedicine capabilities in morgue
- WhatsApp and TEAMS cell phone apps/communication platforms
- Digital Cameras

### **Environmental Health and Animal Control Technology**

- Wellogic An interactive well log submittal and retrieval site used by Environmental Health (EH) staff and the public.
- Watertrack An internet based software program implemented by MDEQ that tracks monitoring of water sample history of non-community water (T-2) supplies. This allows local Environmental Health staff to enter T-2 facility records.
- Michigan Department of Environmental Quality (MDEQ) Scanned Water Well Record Retrieval System.
- Handheld Garmin GPS units for logging coordinates of soil test holes in the field for septic permits.
- Grand Traverse County GIS Program An intranet based GIS program that allows EH Staff to view land parcel information, aerial photos, and soils data.
- Google Earth for viewing property through satellite imagery.
- Desktop or laptop computers for individual staff.
- o Smart phones for individual staff
- o Digital cameras for documentation of enforcement and educational purposes.
- Polycom microphone/speaker unit for teleconference enhancement.
- 55" flat screen TV with internet access for use in conference/training opportunities for professional meetings and training opportunities.
- A high-speed scanner for septic and well documents and other environmental information into OnBase (scanned document software) for future on-line record access by the public.
- Soils field staff is provided with coupled range finders to assist them in accurately documenting distance measurement on well and septic final inspections.
- Pipehorn pipe and cable locators for locating buried utilities when auguring and probing as part of well or septic permit field work. These locators were provided as a staff safety measure.
- A Spectra Precision Laser is available to field staff to verify proper grades in septic system installations.
- Schonstadt Magnetic locators used to locate property markers, septic tank lids, and buried steel well casings.
- Clinometers for measuring slope during soil erosion inspections.
- MDEQ Environmental Mapper, a web based interactive mapping program, is used to identify areas of historic and active contamination in order to assist with well isolation requirements.
- MDEQ GeoWebFace, a web based interactive mapping program, used to retrieve well log data and to identify oil and gas well locations.
- MDEQ Wetlands Mapper, a web based interactive mapping program, used to view surface water and wetlands.
- Food Establishment Inspections available on the Grand Traverse County Health Department website (www.gtchd.org) through SWORD Solutions.
- Sword Solutions Environmental Health and Soil Erosion Program software.
- Animal Control Excel Spreadsheet
- Animal Control microchip reader for embedded microchips used to identify pets.

# **Emergency Operations Centers**

The department has a fully equipped Public Health Emergency Operation Center with communication capacity including: teleconferencing, Skype video conferencing, web casting, web cam capacity, wireless and hard wired internet connections, copy machine, printer and fax capabilities.

The Grand Traverse County Emergency Operations Center (EOC) is housed in the lower level of the GTCHD and has the same capacity plus access to Weather via DirectTV, Radio Amateur Civil Emergency Service, multiple telephone lines and generator back-up for power to all technology in the EOC.

# III. MISSION, VISION AND VALUES

A local health department shall continually and diligently endeavor to prevent disease, prolong life, and promote the public health through organized programs, including prevention and control of environmental health hazards, prevention and control of diseases; prevention and control of health problems of particularly vulnerable population groups; development of health care facilities and health services delivery systems; and regulation of health care facilities and health services delivery systems to the extent provided by law. - Michigan Public Health Code, Section 333.2433

### A. Mission Statement

The Grand Traverse County Health Department is committed to providing professional, preventive health services. We are entrusted to provide a compassionate and efficient approach to a progressive, comprehensive, holistic health goal accessible to individuals, families and the community.

### B. Vision Statement

The Grand Traverse County Health Department envisions a consummately healthy community in which to live, where health refers to "a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity" (World Health Organization). We remain dedicated to the promotion of this vision and all its contributing elements.

The GTCHD mission, vision, and values are documented on the GTCHD website <a href="http://www.gtchd.org/499/About-Us">http://www.gtchd.org/499/About-Us</a> and in the GTCHD annual reports:

- 2015 http://gtchd.org/DocumentCenter/View/6139/2015-Annual-Report
- 2016 http://gtchd.org/DocumentCenter/View/8326/2016-Annual-Report
- 2017- available at on-site review

#### C. Values

Core Grand Traverse County Values are:

- To Serve with Integrity
- o To Be Innovative
- To Be Accountable
- o To Engage the Team
- To Provide Service
- To Be Transparent

# IV. LOCAL PLANNING AND COLLABORATION INITIATIVES

# A. Local Health Department Specific Priorities

GTCHD priorities are set through a departmental wide strategic planning process. County strategic planning, regional public health strategic planning and our local Community Health Needs Assessment all are factored into the process. The charts below list the GTCHD priorities, which align with the Northern Michigan Public Health Alliance and GTCHD strategic directions.

	Grand Traverse County Health Department Priorities
Strategic Direction	Workforce Development-catalyze the creation of a sustainable, high quality public health workforce
Maximizing and Leveraging Resources	Complete succession planning for retirements of key staffing  Implement a plan for cross-training employees to alternate assignments to cover absences and vacancies internally
	Develop a comprehensive workforce development plan  Implement a consistent and comprehensive orientation plan- county and heath department specific
Achieving a Positive Employment Experience	Introduce Professional Development Planning  Maintain Safe Work Practices Education
	Improve Public Health Core Competency Training Implement Leadership Development Training Complete public heath salary survey
Supporting and Expanding	All health department employees will participate in Public Health Emergency Preparedness Training and Exercises
Strategic Direction	Improved Health Outcomes for our Community in Alignment with Healthy People 2020 and Evidenced Based Strategies
Maximizing and Leveraging Resources	Continue monitoring and review of health department program metrics via monthly scorecard
Supporting and Expanding Communication & Outreach Program	Reduce Infant Mortality Improve Immunization Rates Improve Breastfeeding Rates Lead Poisoning Prevention and Expand Public Health Nursing Case Management of children with BLL greater than 5. Increase Access to Oral Health Services: Expand fluoride varnish application for children through WIC Reduce Maternal Smoking Rates: Regional Prenatal Smoking Workgroup Initiative, Preconception Health Grant Collaboration, All Community Health Program initiatives Improve Access to Care: SIM/CHIR projects, Birthing Hospital Outreach projects, Regional CQI projects, Public Health Nursing outreach
Committing to Positive	Maintain and ensure safe drinking water sources, food sources, beaches and other environmental health sources  Continue involvement in local, regional and state committees: Maternal and Child Health & Grant projects, Immunization Task Force, Perinatal Network, Child Death Review, Schools, Prenatal Smoking, Oral Health Coalition, Great Start Collaborative, Grand Traverse Collaborative, Community Health Needs Assessment workgroup, Substance
Advocacy Efforts	Free Task Force, etc.  Actively participate in local, regional, and state initiatives to capitalize on shared experience, expertise, and best practice for addressing community health needs and communicating need for sustaining core public health funding:
Strategic Direction	Integrated Processes and Maximizing Technology for Efficiency
Maximizing and Leveraging Resources	Efficient process improvement efforts throughout the health department  Contract and grant agreement renewals and new contract and grant agreements  Reconciliation of IT equipment employees actually have on annual basis  Develop clinical and IT support staff electronic health expertise to support clinical programs and workflow
Achieving a Positive Employment Experience	Intranet reorganization and update with county wide policies and procedures; Departmental areas for department specific policies and procedures

	Grand Traverse County Health Department Priorities
Strategic Direction	Communication- Provide consistent intentional employee communication to be transparent, build trust and build confident working relationships
	Foster a collaborative work environment that builds cohesion, reinforces strategic goals, leverages strengths and cultivates a creative environment
	Provide monthly updates via Health Department electronic newsletter on big picture things, employee events etc. to boost employee morale
Achieving a Positive	Provide essential communication on program changes, staffing, policies, programs and other heath department core operation items that affect all staff
Employment Experience	Program Specific Weekly Huddles Program Specific Monthly StaffMeetings/Ongoing Education
	Continue QuarterlyAll Staff Meetings with essential trainings, program updates and Monthlymanagement team meetings Implement health department specific "welcome packets" along with county orientation and health department orientation.
	Consistent health department forms in one common area for employees to use
Committing to Positive Advocacy Efforts	Consistent health department policy organization and County policy organization
Strategic Direction	Financial and Quality Compliance Readiness- maintain department wide readiness for state surveys, program reviews and accreditation
Maximizing and Leveraging	State Survey Readiness for the following 2017 Audits: Women's Infants & Children program, Maternal & Infant Health Program, Office of Inspector General Billing Audit, Medicaid Outreach Audit, Local Maternal and Child Health Block Grant Audit; Adolescent Health Clinic State Survey, Environmental Health Program Reviews etc.
Resources	Maintain HIPAA Compliance and work with IT to improve HIPAA security
	Maintain OSHA Compliance
	2018 Accreditation Preparations and Explore possibility of national accreditation readiness
Supporting and Expanding Communication &	All Community Health Programs Record Review Monthly/Quarterly/Trending/Education
Outreach Program	All Community Health Programs Annual Policy and Procedure Review
Strategic Direction	Optimal Health Department Operations Support and Architecture
	Determine appropriate staffing for an imal control based upon metrics and adjust as funding allows
Maximizing and Leveraging Resources	Receive sufficient support from core county services allowing health department to focus on public health mission.  Critical need for more IT and HR support. Indirects
	Establish ability to scale staffing and operations as emerging opportunities present themselves
Achieving a Positive Employment Experience	Establish and maintain open and effective collaborative working relationships with key county departments; Smooth Health department operations depend on strength of service from brother/sister departments: Human Resources. Information Technology. Sheriff, Prosecutor's Office, Facilities
Strategic Direction	Leveraging Local and Regional Collaborations: Actively participate in local, regional, and state initiatives to capitalize on shared experience, expertise, and best practice for addressing community health needs;
	Develop, implement and sustain models of shared public health services that increase capacity, contain costs, maximize assets and more effectively impact health outcomes.
Maximizing and Leveraging	Northern Michigan Public Health Alliance - better health, better care, lowercost
Resources	Northern Michigan Community Health Innovation Region- embrace triple aim of better health, better care, lower cost Emergency Management- conduct a county wide emergency management strategic plan for full integration and support of program
Supporting and Expanding Communication &	Northern Michigan Public Health Emergency Preparedness- continuity of operations plan; public information plan; open and closed points of dispensing; Build enhanced administrative capacity for public health response
Outreach Program	Build and implement regional Medical Examiner capacity

# B. Local Health Department Strategic Plan to Pursue Priority Projects

While the health department's priorities are specific and focused, the overall strategic plan is representative of our role in the community as the Chief Health Strategist, synthesizing layers of initiatives together for collectively moving the needle in our community and region.

GTCHD is in the second year of its current four-year strategic plan and will embark on developing a new plan in the fall of 2020. Prior to the development of the current strategic plan, the health department reviewed data and information from a variety of sources to provide additional background and direction to the planning process. GTCHD utilized the technology of participation methodology to establish a practical vision, identify underlying contradictions, determine our strategic directions and develop a focused implementation plan. Using this framework enhanced the strategic planning process and the resulting plan. Goals of GTCHD are provided in the Strategic Plan outline below.

### **Grand Traverse County Health Department**

# Practical Vision- Created May 3, 2017 What do we want to see in 3 years as a result of our actions? Grand Traverse County Health Department

Diverse Stable	Skilled Support	Innovative	Engaged and	Consistent and	Trusted and	Integrated	Collaborative	Comprehensive
Funding	Staff	and Efficient	Informed	Intentional	Respected	Vulnerable	Innovative	Thriving
		IT Support	Community	Supportive	Community	Population	Public Safety	Infrastructure
				Supervision	Partner	Services		
Stabilized funding	Health Department is the Employer of choice for Grand Traverse County	IT supported media and other technology	Integrated public health vision within the community	Has regular intentional communication with staff	Recognized leader of public health program in Region	More involved with elderly	Established well- functioning collaborative public safety team	Increased capacity for laboratory response to local public health threats
Captured all revenue opportunities for services	Compensation matches industry standards	Environmental Health software upgraded to increase efficiency	All area providers are educated on Health Department Services	Regularly review of strategic goals	Demonstrated advancements through collaborations	Community aware of Medicaid programs available	Integrated preparedness and planning throughout Health Department	Stabilized infrastructure for all public health programs
Robustly funded comprehensive public health programs	Staff is versatile and experienced	Patient portal implemented	Increased advocacy for public Health	Implemented reflective supervision for MIHP	Expanded regional medical examiner capacity (local autopsies)	Fully integrated and enhanced Adolescent Health Programming	Implemented public safety tourism tax	
Adequately funded Animal Control	Added staffing for Emergency management	Digitized well & septic permit records	Returned presence at the Munson Medical Center infection prevention meeting	Well informed staff of ongoing and/or potential communicable diseases				
New vehicles purchased for community Health Field Staff	All support staff cross-trained	Electronic Health Department and County forms	Prioritized proactive outreach strategy					
Environmental Health staffing level matches demand	Reinstated and Re- evaluated tuition reimbursement policy	Updated accounting software	Established new media communication trends					
Secured funding to support positions gaps	Adequate and highly skilled staff in all programs	Improved technology for environmental health and animal control						

#### Northern Michigan Public Health Alliance Strategic Plans

The Northern Michigan Public Health Alliance has completed two rounds of strategic planning. The Alliance is a collaboration of seven local health departments and cross sector partners that was created in December, 2014 following a two-year exploration of cross jurisdictional sharing arrangements. The Alliance covers 31 counties that have joined to strengthen public health across the region. The Alliance members share resources and work collaboratively on solving health-related problems for the betterment of each individual agency and Northern Michigan as a whole. The Alliance has had great success in its four years of operating with over \$5 million in grants to the region for public health initiatives and \$6 million in funding for the Northern Michigan Community Health Innovation Region. Our priorities include maternal and child health, information technology, obesity and chronic disease prevention, access to care, substance use and an integrated perinatal system of care. The 2015-17 and 2018-20 Alliance strategic plans follow.

# Northern Michigan Community Health Innovation Region Strategic Plans

The Northern Michigan Community Health Innovation Region was formed in 2016 with an initial focus of building community capacity to reduce emergency department utilization. Strategic planning resulted in establishing the infrastructure and collective impact capacity needed for health transformation in the region for 2017. Plans included:

- Developing new and enhanced partnerships that connect traditional medical care with community care through Community Connections and HUBs.
- Developing a robust web-based resource directory to assist in identifying local healthcare and social service providers.
- Developing a web-based screening and referral tool distributed across providers and community organizations.
- Collaborating with non-traditional partners such as local business owners and engaging Medicaid beneficiaries in setting community priorities.
- o Planning a multifaceted initiative to support appropriate emergency department use.

In 2018, the focus shifted to obesity and root causes of social determinants of health which were identified by the Community Connections HUBs. In response, the Northern Michigan Community Health Innovation Region create comprehensive, region-wide Community Health Improvement Plans to address them. Utilizing the ABLe Framework for Community Change, the Northern Michigan Community Health Innovation Region is engaging over 90 community partners and constituents in the development of a comprehensive Community Health Improvement Plan to reduce obesity in the region.

# Priority Populations & Target Problems

### Through a health equity lens:

- Primary population: Emergency Department utilizers
- Secondary population: Chronic Disease, with focus on obesity/overweight

#### Target problems for priority populations:

- · Access to healthcare
- Active Living
- · Education (health)
- Healthy, affordable food
- Housing
- Transportation
- Financial assistance

### C. Community Partnerships and Collaborative Efforts

GTCHD is one of many agencies locally that convenes community partners to improve the quality of life in Grand Traverse County (and the region) through coordination, collaboration and collective work on solutions for community-defined problems. Community partnerships are critically important in achieving positive health outcomes, community preparedness and to maintaining a quality public health system. As evidenced from the alignment with the Northern Michigan Public Health Alliance and Community Health Innovation Region, GTCHD places a strong emphasis on facilitating and strengthening partnerships that work together to identify and solve community health problems. GTCHD and our community partners have weaved Health in All Policies, Public Health 3.0 and Chief Health Strategist throughout our efforts.

A key driver in community partnerships are the priorities identified in the 2016 Community Health Needs Assessment. The most recent Community Health Needs Assessment (CHNA) was conducted in collaboration by Munson Healthcare, local health departments and community partners during 2015 and 2016 to explore the health status of people living within the five-county Grand Traverse region. The goal was to pinpoint the most pressing health issues in our community and determine what is being done or what more can be done to improve the health of the people we serve. This assessment was used to define community health priorities, develop an updated community plan and guide collaboration and resource allocation.

The full Community Health Needs Assessment report can be found at <a href="https://www.munsonhealthcare.org/CHNA">www.munsonhealthcare.org/CHNA</a>

Based upon the primary and secondary data analysis and input from focus groups of community members and community leaders, the following areas emerged as top priorities in Grand Traverse County:

- Obesity and overweight
- Diabetes
- Substance abuse/tobacco use
- Access to health services
- Mental health
- o Maternal, fetal and infant health
- Access to healthy foods

GTCHD staff are actively involved in many activities that support the priorities identified for Grand Traverse County and the greater Northern Michigan regions that align with the Northern Michigan Community Health Innovation Region and Northern Michigan Public Health Alliance.

### **Key Public Health Collaborations:**

- Community Health Needs Assessment Steering Committee- Provides guidance to regional community health needs assessment and health improvement planning throughout Northern Michigan.
- Northern Michigan Public Health Alliance- cross jurisdictional alliance formed to develop, implement and sustain models of shared public health services that increase capacity, contain costs, maximize assets, and more effectively impact health outcomes in order to promote health, prevent disease and promote the environment within each of the respective jurisdictions and the region as a whole. The Alliance received the highest public health honor from the state, The MDHHS Director's Award in 2015 for the collaboration.
- Northern Michigan Community Health Innovation Region- Northern Michigan Community Health Innovation Region (NMCHIR) is a partnership of health and community service providers serving the health needs of individuals across ten counties in Northwest Michigan. Northern Michigan Public Health Alliance is serving as the backbone organization, providing leadership and facilitating the development of a common agenda, shared measurement, mutually-reinforcing activities, and continuous communication.
- Northern Michigan Public Health Emergency Preparedness Team (NMPHEP) was established in 2015 following an intense strategic planning process with three local health departments, covering seven counties. NMPHEP was developed to provide a fully integrated approach to emergency preparedness that unifies local planning to increase training and exercise of operational capacities by more efficiently and effectively leveraging grant funding while increasing public health's visibility in the local community across the region. NMPHEP, led by GTCHD, received the 2016 MDHHS Director's Award and a 2017 National Health Security Award from National Association of City and County Health Officials.

Additional Community Collaborations organized by area of identified community priority:

### **Obesity, Overweight and Diabetes**

- Munson Medical Center Community Health Committee- Selects and prioritizes Munson's Community Benefit programs with a focus towards CHNA priorities, particularly reducing overweight/obesity.
- Munson Health Care Community and Population Community Health Committee-Align the implementation of CHNA priorities and improvement planning activities throughout the entire Northern Michigan Munson system.
- Shape Up North- Community coalition to promote exercise and healthy eating to address obesity. Membership includes multiple community service and business organizations aimed at creating awareness, coordination of services, referral facilitation and interagency coordination.
- Northern Michigan Diabetes Initiative- Community coalition to promote exercise and healthy eating to address diabetes, create awareness and interagency coordination.
- <u>Diabetes PATH</u> (Personal Action Toward Health) Area Agency on Aging coordinates classes targeted at diabetes self-management and creating confident caregivers.
- Munson Diabetes Prevention Program- Evidence based practice education focused on area providers to prevent diabetes and engage and improve the care of people with diabetes.

#### Substance abuse/tobacco use

- Grand Traverse County Drug Free Coalition- Coalition focused on a community-wide culture of awareness and action through youth and family education and community collaboration through efforts.
- <u>Families Against Narcotics</u>- Grand Traverse Chapter launched on June 21, 2018 after months of exploration and preparation.
- <u>Perinatal Substance Abuse Prevention Steering Committee</u>- Grand Traverse County participates in this Munson Medical Center facilitated committee aimed at standardizing our region's care and interventions regarding perinatal substance abuse.
- Northern Michigan Maternal Smoking Cessation Workgroup- 21 county regional team meets quarterly to standardize interventions aimed at decreasing maternal smoking rates. Implemented training for all clinicians on Stages of Change and Motivational Interviewing, developed and implemented a standard of care and documentation system inclusive of the 5As/5Rs motivational interviewing strategies, and beginning work on a regional flyer, branding and promotional package for all providers.
- Tobacco Coalition- Grand Traverse County Health Department participates in this coalition aimed at creating awareness and meeting education needs to decrease tobacco use.

#### **Access to Health Services:**

- Grand Traverse Community Collaborative- Facilitates the development of collaborative locally-based health and human services to enhance the lives of all of the residents of Grand Traverse County with a focus on prevention strategies to improve the lives of children, families and seniors.
- Great Start Collaborative- the collaborative includes parents, service providers, partners and stakeholders who contribute their time and expertise to help make sure children receive the best care and education we can provide. The multi-county collaboratives in northern Michigan are working together to ensure that all families have access to information, programs and services in their communities. Specifically, the Grand Traverse Great Start Collaborative has a 5 to 1 project to establish neighborhood centers as an infrastructure to support early childhood development needs and to assist in creating sustainable early childhood programming. Currently exploring integration of public health promotions and education, along with centering home visitation for prenatal and postpartum families, with a focus on networking people together.
- Grand Traverse Regional Health Care Coalition- Coalition Health Access Program (CHAP), a program to serve the uninsured for health services to improve access to health care.
- Dental Clinics North- GTCHD partners with Health Department Northwest and My Community Dental Clinics to provide dental services to Medicaid enrollees and lowincome, uninsured residents in the Grand Traverse region.
- Grand Traverse Region Oral Health Coalition- A multi county coalition formed to increase access to dental care and increase awareness of dental benefits for those enrolled in Medicaid and the Healthy Michigan Plan.
- Poverty Reduction Initiative- A community-driven, collaborative effort to reduce poverty in the Traverse Bay region. Consists of representatives from local businesses, public and government agencies and concerned citizens. Working subcommittees focus on five strategic directions: Navigators, Mentoring, Education, Advocacy and Communications.
- Insurance Enrollment/Navigators- GTCHD partners with other health providers in the region to enroll individuals in need into Medicaid and Healthy Michigan Plan.
- Munson MEDS program- GTCHD may refer clients for prescriptions.
- Pharmacy Safety Net- GTCHD established accounts at two area pharmacies.
- Community Connections- Offered through the Northern Michigan CHIR HUBS, this
  program connects and refers community members to health care, dental care and
  other community resources identified through a comprehensive basic needs
  assessment at physician offices and other providers.

#### **Mental Health**

- MC3 Telemedicine Program- The Michigan Child Collaborative Care (MC3) program provides psychiatric support to primary care providers in Michigan who are managing patients with behavioral health problems, including children, adolescents, young adults through age 26, and women who are contemplating pregnancy, pregnant, or postpartum with children up to a year. The adolescent health centers, KTown Youth Health Center and Youth Health and Wellness Center, have registered as 'referring providers' to access the psychiatrists based out of the University of Michigan Depression Center Michigan Medicine department for phone consultation and guidance related to diagnoses, medications, and psychotherapy interventions to better manage the clients seen by the Nurse Practitioners, Physician's Assistant, and Mental Health Counselors through the clinics. The MC3 program offers sameday phone consultations to the referring providers, and provides remote psychiatric evaluation in select counties to patients and families through video telepsychiatry.
- <u>Family Assessment & Safety Team</u>- Mobile Mental Health Crisis Services for families with children ages 0-20. A collaboration between Northern Lakes Community Mental Health, Munson Medical Center Behavioral Health Services, and Child & Family Services/Third Level.

#### Maternal, Fetal and Infant Health

- Healthy Futures Steering Committee- Program for all mothers and babies delivered at Munson Medical Center focused on improving immunization rates, breastfeeding rates, and access to care for prenatal/postpartum up to age 5 years. Health department provides the nursing services for this home visiting program and incorporates smoking cessation education both during prenatal contact and at postpartum contact.
- o <u>Perinatal Regional Initiative</u>- A 21+county initiative with a mission to construct a sustainable integrated and coordinated network of care to deliver perinatal services to women and children in northern Lower Michigan that builds on the existing structures of care and results in decreased infant mortality.
- o <u>Prenatal 6 Workgroup</u>- Workgroup focused on coordination of services, awareness of community resources, referral facilitation, etc.
- Great Start Collaborative- Efforts of the Northern Michigan Workgroup supported by the Great Start Collaborative.
- MC3 Telemedicine Program- The MC3 psychiatry program has provided monthly Maternal Infant Health Program staff opportunities for confidential video case presentations and guidance to reduce barriers and support public health nurses and social workers to make recommended behavioral health referrals and strategize to improve access and facilitate collaboration with physician medication management and community mental health services for pregnant and postpartum Maternal Infant Health Program clients.

### **Access to Healthy Foods**

- Fruit and Vegetable RX Program Munson-led regional program focused on increasing access and consumption of fruit and vegetables. Sessions provided by area medical providers on how to use and cook fresh produce.
- <u>Project Fresh</u>- WIC Project FRESH helps to provide healthy and nutritious produce to Michigan WIC participants. The program provides low-income, nutritionally-at-risk WIC participants with eligible, locally grown, fresh, unprepared fruits and vegetables from authorized farmers, farmers' markets and roadside stands throughout Michigan.

### Water Health and Safety

- Northwest Michigan Water Safety Network:-The Northwest Michigan Water Safety Network is a community alliance formed in 2013 to improve the overall health and safety of the region's public beaches.
- <u>Beach Monitoring Stakeholders</u>- A collaborative effort with Watershed Center of Grand Traverse Bay, Local, State and Federal governmental agencies.
- <u>Child Death Review Team</u>- A bi-county prevention based group, drowning prevention discussions
- <u>Local Emergency Planning Committee</u>- Established by the county to ensure that appropriate plans are in place to increase the safety of the community. The countywide response plan for pull together the emergency response plans of municipalities, industry, school districts and others in addition to response plans for natural disasters such as snowstorms, flooding, tornadoes and severe weather.
- <u>Local Planning Team</u>- comprised of representatives from Fire, Law Enforcement, Healthcare, 911, Public Health and other disciplines. This team works together to promote enhanced coordination between emergency response agencies.
- Northwest Michigan Onsite Wastewater Task Force- This organization promotes access to information concerning accepted and innovative technologies in the field of onsite wastewater system design, operation and management both for individual home and business owners and units of local government.

#### **Emerging Infectious Disease Preparedness**

- <u>Public Health Emergency Preparedness Campaign</u>- A comprehensive Public Health Preparedness campaign broadcast on six local radio stations. Six commercials a day focused on specific health preparedness capacities for 12 months in 2015-16.
- <u>Ebola/Emerging Infectious Disease Preparedness Workgroup</u>- Munson Medical Center, Grand Traverse County Health Department and first responders working collectively to address preparedness needs and specific protocols for Ebola and other emerging infectious diseases.
- <u>Vaccine Preventable Disease Task Force</u>- Multidisciplinary group focusing on education, advocacy and outreach in order to improve immunization rates.
- Infection Control Committee- Includes Munson Medical Center, Grand Traverse County Health Department and Benzie-Leelanau District Health Department.

A comprehensive list of Community Collaborative Partners and Projects is printed each year in the GTCHD Annual Report.

### D. Local Public Health as Chief Health Strategist

Health departments are now serving as "Chief Health Strategists" for a community or region, by convening community partners to carry out broad plans for improving population health at many levels. As the community chief health strategist in their communities, local health departments advance current roles to prevent death, disease, and disability; address emerging threats to health, security, and equity; and eliminate the social and structural injustices that result in health disparities by addressing the growing gap between the expansion of healthcare services and the achievement of health among individuals and communities. Sustained leadership at the community level is essential to bring together community stakeholders to prioritize the needs of the community and to leverage resources to build integrated systems to achieve health equity. Local health departments are uniquely positioned to fill this role through their experience in providing essential services and leadership, engaging communities to identify and support policy solutions, and collecting, analyzing, and sharing data. Two key partnerships that have embraced this role are the Northern Michigan Public Health Alliance and the Northern Michigan Community Health Innovation Region. Health Officer Hirschenberger currently serves as the Chair of both.

From its inception in late 2014, the health departments that make up the Northern Michigan Public Health Alliance have been guided by the notion of "strategic leadership". The shared vision it created and adopted early on has enabled the organization to respond nimbly to funding opportunities as well as internal and external partnerships. The Alliance serves as Chief Health Strategist for the region, by aligning interventions from a cross the community at individual, community, and policy levels. The Alliance is serving as the backbone organization for the Northern Michigan Community Health Innovation Region, providing leadership and facilitating the development of a common agenda, shared measurement, mutually-reinforcing activities, and continuous communication.

Northern Michigan Community Health Innovation Region is a partnership of health and community service providers across ten counties in Northwest Michigan. Community Health Innovation Regions are a broad partnership of community organizations, local government agencies, business entities, health care providers, payers, and community members that come together to identify and implement strategies that address community priorities. Partners act cohesively with a broad-based vision for region-wide impact, to make the environment healthier and to connect health services with relevant community services. The goal is to achieve the "Triple Aim": better heath at lower cost with improved satisfaction. The Northern Michigan Community Health Innovation Region serves ten counties: Antrim, Benzie, Charlevoix, Emmet, Grand Traverse, Kalkaska, Leelanau, Manistee, Missaukee, and Wexford, with 301,040 people living in the 4,722 square mile region. It is 70% rural; has seven hospitals, five federally qualified health centers, five health plans, and four community mental health regions.

### V. SERVICE DELIVERY

GTCHD has four service locations throughout Grand Traverse County. GTCHD's locations (including address), services, and hours of operation are listed in the following places:

- Hours of Operation are posted at all building entrance areas.
- Grand Traverse County Health Department Annual Report with location Map
- Grand Traverse County Health Department Website:
  - O GTCHD link to website
  - Maps to each location are also provided.
- Advertise clinic dates/times and other Public Health services using social media (Facebook and Twitter) and the GTCHD website; when appropriate, the County website and press releases (either faxed or emailed) are also be utilized.

Health Department Locations, Hours of Operation and Services by Location are:

# 1. GRAND TRAVERSE COUNTY HEALTH SERVICES BUILDING 2600 LaFranier Road - Suite A, Traverse City, Michigan 49686

### **Administration/Finance & Medical Examiner Divisions**

Phone: 231-995-6100

Hours of Operation: Monday through Friday 8:00 am -5:00 pm

#### Services:

- Insurance Billing
- o Medical Examiner administration for Grand Traverse and Leelanau Counties
- Child Death Review Coordination

#### **Emergency Management & Public Health Preparedness Division**

Phone: 231 995-6059 231 995-6010

Hours of Operation: Monday through Friday: 8:00 am - 5:00pm

Available as needed for emergencies 24/7

#### Services:

- o Natural Hazards Mitigation Plan
- Local Emergency Planning Committee
- Local Planning Team Coordination
- Pandemic/Epidemic Planning & Exercise
- Mitigate/Reduce Effects of Technological or Natural Emergencies
- Develop Disaster Preparedness Plans
- Restoration of Disaster Affected Areas to their Previous State
- Provide Training to the Public/Emergency Responders
- Provide Safety Information to the Public
- Coordinate Local State Federal Resources
- Provide a Funding Bridge to Federal Funds
- Prepare community for public health emergencies

### **Community Health Division**

Phone: 231 922-6111

Hours of Operation: Monday through Friday: 8:00 am - 4:30 pm

1st & 3rd Wednesday Late Clinic: 8:00 am - 6:30 pm Monday through Friday Closed from Noon - 1:00 pm

### Services:

### Maternal Child Health Programs

- o Children's Special Health Care Services
- Maternal and Infant Health Program
- Healthy Futures
- o WIC (Women, Infants, Children)
- Breast Feeding Peer Counseling
- o Project Fresh
- Childhood Immunizations
- Vision and Hearing Screenings
- Blood Lead Case Management
- Fluoride Varnish
- Kindergarten Roundup Assessments
- Head Start Screenings and Physicals

### Disease Control and Prevention Programs

- Communicable Disease
- Reproductive Health Services
- o STI (Sexually Transmitted Infections) Clinic
- HIV/AIDS Program
- Court Ordered Testing
- Tuberculosis Screening
- Women Care (Underinsured women 40-64 years old)
- Breast and Cervical Cancer Control Program
- Immunizations
- Waiver Education

### Other Programs

- o Dental Clinics North
- Medicaid Outreach and Enrollment
- Community Connections HUB

### 2. YOUTH HEALTH AND WELLNESS CENTER School Based Adolescent Health Clinic 880 Parsons Road, Traverse City, Michigan 49686

Phone: 231 922-6416

Hours of Operation: Monday through Friday: 8:00 am - 4:30 pm

Closed from Noon - 1:00 pm Seasonal evening hours

### Services:

Limited primary care for youth 10 - 21 years of age

- o Acute care and chronic disease management
- Health EducationCounseling Services

### 3. K-TOWN YOUTH HEALTH CENTER

School Linked Adolescent Health Clinic 112 South Brownson Avenue, P.O. 117, Kingsley, Michigan 49649

Phone: 231 263-5895

Hours of Operation: Monday through Friday: 8:30 am - 4:30 pm

Closed from Noon - 1:00 pm

### Services:

Limited Primary Care For Youth 10 - 21 Years Of Age

- Acute Care And Chronic Disease Management
- Health Education
- Counseling Services

# 4. OFFICE OF THE MEDICAL EXAMINER (Grand Traverse and Leelanau Counties) Western Michigan University Homer Stryker M.D. School of Medicine 1000 Oakland Drive, Kalamazoo, MI 49008

Phone: 269-337-6173

Hours of Operation: Monday through Friday: 8:00 am – 5:00 pm

24/7 as needed

### Services:

- Medicolegal Death Investigations
- Autopsies And Toxicology
- Autopsy Reports
- Cremation Permits For Funeral Homes
- Forensic Anthropology/ Scientific Identification Of Deceased
- Mass Fatality Planning And Response
- Child Death Review

## 5. GRAND TRAVERSE COUNTY PUBLIC SERVICES BUILDING 2650 LaFranier Road, Traverse City, Michigan 49686

### **Environmental Health**

Phone: 231 995-6051

Hours of Operation: Monday through Friday: 8:00 am - 4:30 pm

Closed from Noon - 1:00 pm

### Services:

Food Service Inspection

- Temporary Food Permitting
- Septic Permits (private/commercial)
- Well Permits (private/commercial)
- Site Surveys (Vacant Land Evaluations)
- Subdivision (Plan and Site Condominium Development)
- Body Art Licensing
- Campground Inspections
- Public Swimming Pool/Spa Inspections
- Public Water Supply Monitoring (Type II)
- Bathing Beach Monitoring
- Groundwater Protection (monitoring)
- Septage Program Inspections
- Indoor Air Quality/Radon
- MDHHS Office of Children and Adult Licensing Environmental Health Inspection Requests
- Soil Erosion Inspections and Permits

### **Animal Control**

Phone: 231 995-6080

Hours of Operation: Monday through Friday: 8:00 am - 6 pm.

(After hours as needed)

### Services:

- Enforce the Michigan Dog Law of 1919
- Enforce the Grand Traverse County Animal Control Ordinance
- Investigate loose dog and other animal complaints
- Quarantine animals involved in bite cases
- License enforcement
- Shelter stray dogs via Cherryland Humane Society
- Transport injured stray dogs to veterinary clinics
- Kennel licensing

### VI. REPORTING AND EVALUATION

### A. Evaluation of Activities

GTCHD utilizes different mechanisms to evaluate public health activities. GTCHD partners on the Community Health Needs Assessment and affiliated focus groups. Public Health Administration is continuously analyzing program data, chronic disease trends, MDSS weekly reports, morbidity and mortality data, demographic trends and other relevant public health data. These data sources are used directly or indirectly to measure the health of the residents and establish baseline trends. The information provided through these assessment tools enables the health department to prioritize and plan programs according to the needs of the community. The information also provides baseline data for programs to monitor improvement toward impacting health indicators, departmental efficiencies, and quality improvement activities. GTCHD also works to ensure that new and existing projects/programs are scientifically evaluated and are evidence based or best practices. In 2018, GTCHD is forming a Performance Management and Quality Improvement Committee to provide oversight to our agency's quality improvement process, monitoring performance indicators, and implementing a formal written Quality Improvement Plan

Specific examples of tools used to evaluate programs and services include:

- GTCHD's budget is developed around the goals and objectives identified in the Strategic Plan, which is reviewed yearly.
- Program metrics are monitored monthly on the GTCHD Scorecard (Attachment 6) which consists of program statistics. Data are analyzed by program managers and supervisors to assure standard quality, effective and efficient service delivery, and are reviewed by the leadership team. The Health Officer reviews the metrics quarterly and the annual report numbers are reported from the completed annual scorecard.
- Quarterly program chart audits are conducted by peers and managers
- Weekly Grand Traverse County Communicable Disease reports from MDSS
- Managers review program goals and statistics with staff on a monthly basis and adjust clinic and program activity as needed to meet projections.
- Medical Director monitors and evaluates epidemiology information for international, national, state and local communicable, infections, and chronic diseases. The Medical Director reports to the GTCHD staff on new or applicable topics and disseminates to clinical staff.
- The Medical Director, Health Officer, and Program Supervisor of Disease Control and Prevention review epidemiology reports and MDSS unique cases with the regional MDHHS Epidemiologist housed at GTCHD.
- Regular communicable disease reports to Munson Medical Center Infectious
  Disease staff via Medical Director, as a quarterly or biannual meeting between
  LHD's and Infection Prevention becomes reestablished.
- Completion of Local MCH Block grant plan and annual progress report.

- Community Health program and clinical activities are entered daily into Mitchell & McCormick software as well as MI-WIC system. Reports linked to program objectives are generated on a weekly, monthly, and quarterly basis. These updates are used to monitor projected financial and program goals.
- Environmental Health Division staff records their daily activities on a computer software program by Sword Solution. These activities are reviewed by the Environmental Director on a monthly basis and a report is submitted to the Health Officer. New modules in 2018 include Soil Erosion and Animal Control.
- Quarterly reports of Environmental Health activities are reported to the MDARD and MDEQ as part of the MPR's for our contracted services to those departments.
- Program outcomes are published yearly in the GTCHD annual report which includes: the numbers of customers served, times and locations of services, types of services within each program etc. Copies are distributed to the State and County officials, as well as, made available to public via the GTCHD website.
- Community/Local/Regional grant reports- Managers report on grant objectives and expenditures. Examples include: Rotary Charities, the Grand Traverse Band, Oral Health Outreach, Tobacco Cessation, Sustaining Immunizations, Lead Prevention Outreach, etc.
- Completion of annual plans and progress reports based on performance management metrics, goals and objectives for maintaining and/or improving program performance to meet state requirements for program funding, i.e. CSHCS, WIC Nutrition Services Plan, Title X Family Planning, etc.
- Chart audits are conducted by our Medical Director (monthly for Family Planning, quarterly for Adolescent Health) to assure quality, program compliance and goals, and make changes/improvements based on findings.
- A clinic observation tool for family planning is utilized to assure quality, Title X compliance, and implement improvements.
- Completion of Annual Immunization Action Plan and Year End Report, Michigan Immunization Childhood Registry, Vaccine For Children and Immunization Inventory Report
- Quarterly reports are conducted and submitted to the applicable state department (DEQ, MDA, MDHHS) for clinical programs (hearing, vision etc.) and environmental health programs; MIHP program reports provided to State, Medicaid Outreach reports provided to the State.
- The Health Department's finance and accounting staff reviews and summarizes program financial results on a monthly basis, accumulating data for reporting and billing purposes. During this process, information is disseminated regarding variances from budget or anticipated results to the various program coordinators, managers, and the Health Officer to assist in program management and evaluation. Quarterly Financial Status Reports required by contracts with the State of Michigan are prepared and reviewed with the Health Officer prior to submission to the State. Financial records are reviewed on an annual basis by the County's independent auditors.

- Emergency Preparedness progress reports generated to identify completion of identified program objectives for grants.
- Client satisfaction surveys of students, parents, and school staff are conducted and analyzed annually at both adolescent health centers related to both mental health services and clinical services.
- A client "Comment Book" is placed in each Family Planning clinic room for confidential/anonymous comments. It is reviewed by all staff on a regular basis at staff meetings. Information from the "Comment Book" is used to address positives and negatives of clinic services.
- Children's Special Health Care Services completed customer satisfaction surveys in 2017 and 2018, as well as, receiving client feedback during client contacts and community outreach activities, such as the Northwest Michigan Fair and the National Cherry Festival.
- The Immunization program has conducted satisfaction surveys for both vaccination clients and waiver education clients. The tools and process are scheduled for review and revision in 2018.
- Risk Assessments are done using the RAAPS (Risk Assessment for Adolescent Preventive Services) tool at both adolescent health centers. Data is analyzed by program coordinator/supervisor and team.
- Data is gathered and analyzed from computerized employee time and activity reports by administration.
- Annual planning and evaluation of achievement of identified objectives completed during monthly program staff meetings, quarterly all staff meetings, and program specific strategic planning activities.
- Michigan Accreditation Program every three years to assure quality standards
- The county conducts a financial and single audit annually.
- Monthly analysis and evaluation of budget expenditures and revenues are conducted by finance staff and reviewed quarterly with Health Officer and program managers.
- Survey data, pre/post test data, health screening data, demographic data, production report data, etc. are all used to evaluate program effectiveness.
- Staff education is conducted quarterly at all staff meetings to assure competent workforce, as well as at monthly program specific staff meetings, weekly staff huddles, and just in time specific as needed sessions.
- Community Health staff annual survey conducted for input on individual professional development needs with follow-up planning per employee desire with director/supervisor.
- Logic models are developed for health promotion projects.
- Minimum Program Requirements in all program areas that apply are a standard by which we evaluate program effectiveness.
- Debriefing and after action reports are conducted upon completion of emergency situations.

- Grand Traverse County Administration conducts employee surveys on employee recognition, wellness, job satisfaction and goals for the county. Citizen input is gathered through the county website and surveys or focus groups during strategic planning.
- Emergency Preparedness and Emergency Management exercises and trainings are conducted locally and regionally to test response capacity.
- Quality Improvement tools: Utilized Plan-Do-Study-Act (PDSA) methodology to increase HPV completion rates (K-Town), increase Chlamydia testing rates (Youth Health and Wellness Center), improve rates of up-to-date mental health treatment plans (both adolescent health clinic sites), increase HIV testing being offered to sexually active clients, improving communication between social workers and medical providers, and update and streamline mental health documentation and assessments. PDSA tool for implementing and evaluating changes in Maternal and Child Health programs, including increasing MIHP enrollment rates for eligible clients, increasing breastfeeding duration rates, reducing maternal smoking rates, improving immunization rates.

### **B.** Reporting Mechanisms

- Regular attendance and presentations by Wendy Hirschenberger, Health Officer, to the Board of Commissioners for approval by resolution. Meetings are also held with township and city officials on Public Health issues as needed.
- Monthly reports on departmental activities to Grand Traverse County Administrator, Board of Commissioners and citizens are available online at: https://www.grandtraverse.org/Archive.aspx?AMID=38
- Policy revision or new policies for programs are reviewed, evaluated, and approved by the governing body of the Grand Traverse County Board of Commissioners.
- Press releases are sent to all news media: newspaper, radio and television stations.
- Medical Director contributes articles to the Record Eagle newspaper.
- Communicable Disease reports are regularly provided to Munson Medical Center Infectious Disease Committee.
- O Public Information Bulletins, Health Advisories, Health Alerts, etc. are broadcast faxed to local physicians, veterinarians, law enforcement, funeral homes and central dispatch (e.g. Hepatitis A outbreak information is provided to the public through the issuance of press releases to local news media. Information is also distributed on such issues as E.coli in beach monitoring of public beaches etc.).
- Medical Director, Health Officer, and Management staff routinely participate in radio and television interviews on various health topics affecting Grand Traverse County. 2015-2018 topics included: Seasonal Flu Vaccinations, Chickenpox Recommendations, Zika, Meningitis, Immunization Waivers, Back to School Vaccinations, Hepatitis A-Strawberries, Rapid Test Beach Water Sampling, Beach Monitoring, FDA e-Cigarettes, Sewage Release, Animal Rescue, Lyme Disease, Hepatitis A Outbreak and Prevention.
- Health Officer gives presentations and updates to the Munson Community and Population Health Committees and other key community partners on the Northern Michigan Public Health Alliance and Northern Michigan Community Health Innovation Region activities.
- Health Department staff present on various topics to civic groups and organizations on health issues. Staff also participates in panel discussions on topics of interest, such as immunizations.
- Health information is accessible on the GTCHD website <u>www.gtchd.org</u> on issues including: immunizations, flu clinics, family planning, pregnancy, nutrition, communicable disease, children with special health needs, sexually transmitted infections, tuberculosis testing, standard fee schedule, food service fee schedule, permit forms, animal control dog ordinance, license, animal bite information, lost and found, adoptions, animal impounds, health education, HIPAA policies, weekly beach reports, online food service inspection reports etc.

 GTCHD Facebook Page and associated Twitter and LinkedIn pages also are used to disseminate information on timely topics. Additionally, exploring use of HootSuite to begin posting to all social media channels at once.

https://www.facebook.com/pg/GTCHealthDept/events/?ref=page\_internal https://mail.google.com/mail/u/0/?ui=2&ik=041ebb4ab1&view=att&th=16398161b008217 f&attid=0.1&disp=safe&realattid=f\_jhm5muhq15&zw https://mail.google.com/mail/u/0/?ui=2&ik=041ebb4ab1&view=att&th=16398161b008217 f&attid=0.2&disp=safe&realattid=f\_ihm5muke16&zw

- Distribution of GTCHD's Annual Report electronically and available for the public on the website:
  - 2014 http://www.gtchd.org/DocumentCenter/View/4346/2014annualreport final
  - 2015 http://www.gtchd.org/DocumentCenter/View/6139/2015-Annual-Report
  - 2016 http://www.gtchd.org/DocumentCenter/View/8326/2016-Annual-Report-
- Grand Traverse County's Annual Report and specific department's Annual Reports can be found on the Grand Traverse County website:

### VII. HEALTH OFFICER AND MEDICAL DIRECTOR

A. Appointment of Health Officer and Medical Director

### **HEALTH OFFICER**

Legal Basis and Qualifications of Health Officer

# PUBLIC HEALTH CODE (EXCERPT) Act 368 of 1978 333.2428 Local Health Officer; Appointment; Qualifications; Powers and Duties. Sec. 2428.

- (1) A local health department shall have a full-time local Health Officer appointed by the local governing entity or in case of a district health department by the district board of health. The local Health Officer shall possess professional qualifications for administration of a local health department as prescribed by the department.
- (2) The local Health Officer shall act as the administrative officer of the board of health and local health department and may take actions and make determinations necessary or appropriate to carry out the local health department's functions under this part or functions delegated under this part and to protect the public health and prevent disease.

### GTCHD Appointment of Health Officer

The Health Officer for Grand Traverse County is appointed through a Grand Traverse County Board resolution which is first reviewed and recommended by the County Administrator at one of three county committee meetings and then forwarded to the full county board. GTCHD has a new Health Officer since its last accreditation review and was appointed following the MDHHS requirements and qualifications review procedure as follows:

- On July 11, 2012, the Resource Management & Administration Committee approved the appointment of Wendy (Trute) Hirschenberger as Health Officer of the Grand Traverse County Health Department.
   www.co.grand-traverse.mi.us/Assets/Departments/Board+of+Commissioners/Minutes/2012/2012-07-11+Minutes.pdf
- On July 25, 2012, the Full Board of Commissioner's approved Wendy (Trute)
  Hirschenberger as Health Officer by Resolution 105-2012 and her duties started on
  August 31, 2012.

  www.co.grand-traverse.mi.us/Assets/Departments/Board+of+Commissioners/Minutes/2012/2012-0725+Minutes.pdf
- On August 8, 2012, Jean Chabut, Director of Public Health Administration, stated in a letter to Dave Benda, Grand Traverse County Administrator, that the Michigan Department of Community Health had reviewed Wendy (Trute) Hirschenberger's credentials and determined that Wendy S. (Trute) Hirschenberger, MPH, CPHA was fully qualified as a Health Officer for Grand Traverse County (Attachment 7)
- See Attachment 8 for Health Officer Hirshenberger's resumé. Diplomas and transcripts are available for review in the Health Officer's file at Human Resources.

### MEDICAL DIRECTOR

Legal Basis and Qualifications of Medical Director

## PUBLIC HEALTH CODE section 2495 of 1978 PA 368, MCL 333.2495 R 325.13004 Medical director; qualifications.

Rule 4. A medical director shall be a physician licensed in Michigan as an M.D. or D.O. who complies with 1 of the following requirements:

- (a) Is board certified in preventive medicine or public health.
- (b) Has an MPH or MSPH degree and not less than 2 years of full-time public health practice.
- (c) Has not less than 3 years of full-time public health practice and 24 graduate credits acceptable toward a public health degree.

### **GTCHD Appointment of Medical Director**

The Medical Director for GTCHD is contracted position with approval through a Grand Traverse County Board resolution which is first reviewed and recommended by the Health Officer, County Administrator and one of three county committee meetings and then forwarded to the full county board. Dr. Michael Collins, MD has been the Medical Director of GTCHD since 1994. Please see below for the procedure for the most recent contract renewal of GTCHD's Medical Director:

- 2017 Resolution 123-2017, from Grand Traverse County Board for renewal of Dr. Michael Collins' as Medical Director for GTCHD:
  - o Resolution 123-2017
  - o <u>11-01-17 Board of Commissioner Meeting Minutes</u>
- Certificate dated April 30, 1997, signed by James K. Haveman, Jr, MDHHS Director, stating Michael P. Collins, MD, MS, meets requirements to be a fully qualified Medical Director in the State of Michigan and his appointment to position of Medical Director is approved by MDHHS. (Attachment 9)
- See Attachment 10 for Dr. Collins' Curriculum Vitae.
- GTCHD maintains copies of the current signed medical director contract, medical license and diplomas for your review.

### VIII. PLAN OF ORGANIZATION APPROVAL FORM

MCL 333.2431 Local health department; requirements; report; reviewing plan for organization of local health department; waiver.

- (1) A local health department shall:
  - a) Have a plan of organization approved by the department.
  - b) Demonstrate ability to provide required services.
  - c) Demonstrate ability to defend and indemnify employees for civil liability sustained in the performance of official duties except for wanton and willful misconduct.
  - d) Meet the other requirements of this part.
- (2) Each local health department shall report to the department at least annually on its activities, including information required by the department.
- (3) In reviewing a plan of organization of a local health department, the department shall consider the fiscal capacity and public health effort of the applicant and shall encourage boundaries consistent with those of planning agencies established pursuant to federal law.
- (4) The department may waive a requirement of this section during the option period specified in section 2422 based on acceptable plan development during the planning period described in section 2424 and thereafter based on acceptable progress toward implementation of the plan as determined by the department.

Please see Attachment 4 for the GTCHD 2018 Plan of Organization approval form.

# MICHIGAN MUNICIPAL RISK MANAGEMENT AUTHORITY COVERAGE OVERVIEW

Member: County of Grand Traverse Member No: M0001162

Date of Original Membership: January 1, 1986

Overview Effective Dates: January 01, 2018 To January 01, 2019

Member Representative: Vicki Uppal Telephone #: (231) 922-4797

Regional Risk Manager: Michigan Municipal Risk Management Telephone #: (734) 513-0300

**Authority** 

#### A. Introduction

The Michigan Municipal Risk Management Authority (hereinafter "MMRMA") is created by authority granted by the laws of the State of Michigan to provide risk financing and risk management services to eligible Michigan local governments. MMRMA is a separate legal and administrative entity as permitted by Michigan laws. **County of Grand Traverse** (hereinafter "Member") is eligible to be a Member of MMRMA. **County of Grand Traverse** agrees to be a Member of MMRMA and to avail itself of the benefits of membership.

**County of Grand Traverse** is aware of and agrees that it will be bound by all of the provisions of the Joint Powers Agreement, Coverage Documents, MMRMA rules, regulations, and administrative procedures.

This Coverage Overview summarizes certain obligations of MMRMA and the Member. Except for specific coverage limits, attached addenda, and the Member's Self Insured Retention (SIR) and deductibles contained in this Coverage Overview, the provisions of the Joint Powers Agreement, Coverage Documents, reinsurance agreements, MMRMA rules, regulations, and administrative procedures shall prevail in any dispute. The Member agrees that any dispute between the Member and MMRMA will be resolved in the manner stated in the Joint Powers Agreement and MMRMA rules.

### B. Member Obligation - Deductibles and Self Insured Retentions

**County of Grand Traverse** is responsible to pay all costs, including damages, indemnification, and allocated loss adjustment expenses for each occurrence that is within the Member's Self Insured Retention (hereinafter the "SIR"). **County of Grand Traverse's** SIR and deductibles are as follows:

# Table I Member Deductibles and Self Insured Retentions

COVERAGE	DEDUCTIBLE	SELF INSURED RETENTION
Liability	N/A	\$75,000 Per Occurrence
Vehicle Physical Damage	\$1,000 Per Vehicle	\$15,000 Per Vehicle \$30,000 Per Occurrence
Fire/EMS Replacement Cost	N/A	N/A
Property and Crime	\$1,000 Per Occurrence	N/A
Sewage System Overflow	N/A	N/A

The member must satisfy all deductibles before any payments are made from the Member's SIR or by MMRMA.

Member's Motor Vehicle Physical Damage deductible applies, unless the amount of the loss exceeds the deductible. If the amount of loss exceeds the deductible, the loss including deductible amount, will be paid by MMRMA, subject to the Member's SIR.

The County of Grand Traverse is afforded all coverages provided by MMRMA, except as listed below:

- 1. Sewage System Overflow
- 2. Specialized Emergency Response Expense Recovery Coverage
- 3.
- 4.

All costs including damages and allocated loss adjustment expenses are on an occurrence basis and must be paid first from the Member's SIR. The Member's SIR and deductibles must be satisfied fully before MMRMA will be responsible for any payments. The most MMRMA will pay is the difference between the Member's SIR and the Limits of Coverage stated in the Coverage Overview.

**County of Grand Traverse** agrees to maintain the Required Minimum Balance as defined in the Member Financial Responsibilities section of the MMRMA Governance Manual. The Member agrees to abide by all MMRMA rules, regulations, and administrative procedures pertaining to the Member's SIR.

### C. MMRMA Obligations - Payments and Limits of Coverage

After the Member's SIR and deductibles have been satisfied, MMRMA will be responsible for paying all remaining costs, including damages, indemnification, and allocated loss adjustment expenses to the Limits of Coverage stated in Table II. The Limits of Coverage include the Member's SIR payments.

The most MMRMA will pay, under any circumstances, which includes payments from the Member's SIR, per occurrence, is shown in the Limits of Coverage column in Table II. The Limits of Coverage includes allocated loss adjustment expenses.

Table II
Limits of Coverage

	iability and Motor Vehicle Physical Damage	Limits of Coverag	e Per Occurrence	Annual Aggregate	
		Member	All Members	Member	All Members
1	Liability	15,000,000	N/A	N/A	N/A
2	Judicial Tenure	100,000	N/A	N/A	N/A
3	Sewage System Overflows	0	N/A	0	N/A
4	Volunteer Medical Payments	25,000	N/A	N/A	N/A
5	First Aid	2,000	N/A	N/A	N/A
6	Vehicle Physical Damage	1,500,000	N/A	N/A	N/A
7	Uninsured/Underinsured Motorist Coverage (per person)	100,000	N/A	N/A	N/A
	Uninsured/Underinsured Motorist Coverage (per occurrence)	250,000	N/A	N/A	N/A
8	Michigan No-Fault	Per Statute	N/A	N/A	N/A
9	Terrorism	5,000,000	N/A	N/A	5,000,000

	Property and Crime	Limits of Coverag	e Per Occurrence	Annual A	Aggregate
	1 Toperty and Ormic	Member	All Members	Member	All Members
1	Buildings and Personal Property	137,498,905	350,000,000	N/A	N/A
2	Personal Property in Transit	2,000,000	N/A	N/A	N/A
3	Unreported Property	5,000,000	N/A	N/A	N/A
4	Member's Newly Acquired or Constructed Property	5,000,000	N/A	N/A	N/A
5	Fine Arts	2,000,000	N/A	N/A	N/A

#### **GRAND TRAVERSE COUNTY HEALTH DEPARTMENT**

#### **BLOODBORNE PATHOGEN EXPOSURE CONTROL PLAN POLICY**

The Grand Traverse County Health Department (GTCHD) is committed to providing a safe and healthful work environment for our entire staff. In pursuit of this endeavor, the following Exposure Control Plan (ECP) is provided to eliminate or minimize occupational exposure to Blood-borne Pathogens in accordance with MIOSHA Rules 325.70001 - .70018, "Occupational Exposure to Blood-borne Infectious Diseases".

The ECP is a key document to assist our Health Department in implementing and ensuring compliance with the Standard, thereby protecting our employees. This ECP includes:

- Determination of employee exposure.
- Implementation of various methods of exposure control, including:

Universal precautions

Engineering and work practice controls

Standard operating procedures

Personal protective equipment

Housekeeping

- Hepatitis B vaccination.
- Post-exposure evaluation and follow-up.
- Communication of hazards to employees and training.
- Record keeping.
- Procedures of implementation of these elements of the Standard are discussed in the subsequent pages of this ECP.

#### I. PROGRAM ADMINISTRATION

- A. Nursing Administration is responsible for the implementation of the ECP. They will maintain, review and update the ECP at least annually and whenever necessary to include new or modified tasks and procedures.
- B. Those employees who are determined to have a risk of occupational exposure to blood or Other Potentially Infectious Materials (OPIM) must comply with the procedures and work practices outlined in this ECP.
- C. Grand Traverse County Health Department will maintain and provide all necessary Personal Protective Equipment (PPE), engineering controls (e.g., sharps containers) labels and red bags as required by the Standard. The Director of Community Health will ensure that adequate supplies of the aforementioned equipment are available in the appropriate sizes.
- D. The Director of Community Health, under the direction of the Medical Director, will be responsible for ensuring that all medical actions required are performed. The

Human Resources Department of Grand Traverse County will maintain appropriate employee health and MIOSHA records.

E. The Director of Community Health will be responsible for assuring training, documentation of training and making the written ECP available to employees, MIOSHA and NIOSH representatives.

#### II. EMPLOYEE EXPOSURE DETERMINATION

A. The following is a list of all **job classifications** at our agency that have been determined to be a Category A:

JOB TITLE POTENTIAL TASK/PROCEDURE **Coordinating Nurse** Inj, Med, Fld, Bld, Cln **Supervising Nurse** Inj, Med, Fld, Bld, Cln **Director of Community Health** Inj, Med, Fld, Bld, Cln Nurse Practitioner Inj, Med, Fld, Bld, Cln Physician Assistant Inj, Med, Fld, Bld, Cln Public Health Nurse I-II Inj, Med, Fld, Bld, Cln Personal Health Tech Med, Fld, Bld, Cln Inj, Med, Fld, Bld, Cln Personal Health Tech/LPN Registered Dietitians Med, Fld, Bld, Cln

Medical Examiner Inj, Med, Fld, Bld, Cln, Vic Medical Examiner-Deputy Inj, Med, Fld, Bld, Cln, Vic Medical Examiner-Investigators Inj, Med, Fld, Bld, Cln, Vic

Environmental Health Director Fld, Cln Environmental Health Coordinator Fld, Cln Health Program Coordinator Fld, Cln Sanitarians I-II Fld, Cln

#### TAKS/PROCEDURE CODE

Inj: Injections

Med: Medical Procedures

Fld:Handling Body Fluids

Bld: Blood Draws/Handling

Cln: Cleaning spills of potentially contaminated body fluids

Vic: Handling Victims at Accident Scene

B. Part-time, temporary, contract and per diem employees are covered by the Standard.

#### III. METHODS OF IMPLEMENTATION AND CONTROL

#### A. Universal Precautions

Grand Traverse County Health Department requires all staff to use Universal Precautions.

#### B. Exposure Control Plan

- Employees covered by the Blood-borne Infectious Diseases Standard receive an
  explanation of the ECP during their initial training session and annually. All
  employees have an opportunity to review this plan at any time during their work
  day. If requested, we will provide an employee with a copy of the ECP free of
  charge.
- 2. Nursing Administration is responsible for reviewing and updating the ECP annually or more frequently if necessary to reflect any new or modified tasks and procedures which affect occupational exposure and to reflect new or revised employee positions with occupational exposure.

#### **C. Standard Operating Procedures**

Standard Operating Procedures (SOP) provide specific guidance on controls and practices that shall be used when performing tasks involving the potential for occupational exposure to blood-borne pathogens. Staff of GTCHD is expected to follow SOP to minimize the potential for exposure to a blood-borne pathogen.

#### D. Contingency Plans

Where circumstances can be foreseen in which recommended SOP could not be allowed, the employer shall assist the staff with identifying a contingency plan that will minimize the potential for exposure.

#### E. Engineering Controls and Work Practices

- Engineering controls and work practice controls will be used to prevent or minimize exposure to blood-borne pathogens. The specific engineering controls and work practice controls used are:
  - Lancets for capillary samples.
  - Safety needles and syringes for injections.
  - Safety butterfly, safety needle and vacutainers for venous samples.
  - Plexiglass table top shield for pouring of specimens.
  - Sharps containers.

#### 2. Sharps Disposal Containers:

- a. They must be closable, puncture resistant, leak proof on sides and bottoms, and labeled or color coded appropriately.
- b. Are inspected and replaced by the licensed staff within the clinic setting.
- c. Will be removed from service when the waste has reached the "full" line or they are otherwise apparently full.
- d. Will be closed by the method the manufacturer intended and stored appropriately until the quarterly pick up is scheduled.
- e. Will be kept in each clinic and lab work area where there is expectation of use of a bio-medical sharp.
- f. Will be kept on the counter or desk tops, easily accessible to the employee needing it, but secure and out of reach of children.

- g. Will be available in portable units for staff in the field or for mobile use in offsite clinics.
- h. Will be evaluated by users with recommended product changes as indicated.
- i. Are stored in the Main Lab and in the storage room in the Reproductive Health Clinic.
- j. Sharps disposal containers and the Bio-Medical Waste Containers are "picked up" quarterly by contracted licensed haulers.

#### 3. Safety Syringe:

- a. This facility utilizes safety products for injections and venous or capillary samples.
- b. Licensed staff will participate in periodic evaluation and selection of safety products that are used by this agency per Safe Needle Act.

#### 4. Work Practice Controls:

- a. Handwashing
  - 1) Handwashing facilities are readily accessible. Running water, soap and towels or hand blow driers are necessary for clinic function. Staff is expected to use accepted handwashing procedures that include running water, vigorous rubbing using adequate soap and complete drying of hands. Antiseptic hand cleansers or towelettes are available and may be used, on a limited basis, if no other facilities are available.
  - 2) Employees should wash their hands immediately (or as soon as possible) after the removal of gloves.
  - 3) Staff must wash their hands immediately following contact with any body fluids, blood or infectious material. All skin (intact or not) that came in contact with the potentially infectious material (PIM) should be washed well with soap and water. Mucous membranes should be flushed with water for at least 15 minutes.
- b. Eating, drinking, smoking, applying cosmetics or lip balm and handling of contact lenses is prohibited in work area where there is a risk for exposure to blood borne pathogens, anywhere specimens are collected, mailed, stored or handled.
- c. Staff shall wear appropriate clothing while collecting, handling and testing specimens including:
  - 1) Closed toe shoes.
  - 2) Minimal jewelry/rings that could pierce gloves.
  - 3) No long necklace, loose scarves that could inadvertently become contaminated.
  - 4) Any other clothing that could increase the risk of blood-borne pathogen exposure or interfere with accurate test results.
- d. Food and drink cannot be kept in refrigerators, freezers, cabinets or on counter tops or work areas where blood or other potentially infectious material is present (labs, exam rooms, clinic refrigerators, etc.).
- e. Mouth pipetting/suctioning of blood or other potentially infectious material is prohibited under any circumstances.

- f. All procedures involving blood or other infectious material are performed in such a manner as to minimize splashing, spattering and the generation of droplets of these materials.
- g. Specimens containing blood or other potentially infectious material are placed in containers that prevent leakage during collection, handling, processing, storage, transport and shipping.
- h. If outside contamination of the primary container occurs, that container is placed within a second leak-proof container that is appropriately labeled for handling and storage purposes.
- i. Equipment which becomes contaminated is examined prior to servicing or shipping and decontaminated as necessary (unless it is demonstrated that decontamination is not feasible). An appropriate "Bio-hazard" label is attached to any contaminated equipment, identifying the contaminated portion. Information regarding the remaining contamination is conveyed to all affected employees, equipment manufacturer and service representative prior to handling, shipping or servicing.

#### 5. **Spills**

- a. Kits Locations:
  - 1) WIC Lab
  - 2) Family Planning Lab
  - 3) Immunization clinic room
  - 4) Front Desk
  - 5) Administration
  - 6) Environmental Health
  - 7) Adolescent Health Centers
- b. Use of Spill Kits
  - 1) Latex free gloves must be worn. A gown should be used if indicated.
  - 2) Broken glass shall not be picked up directly with the hands but swept into a container using the dust pan and brush/broom. (Or, vacuum for small shards.)
  - 3) Sprinkle the absorbent powder (found in the spill kit) over the liquid.
  - 4) Gently brush the powdered substance into a dust pan and empty into a trash container (or red bio-hazard bag if grossly contaminated with body fluids) or use the cardboard "scoops" if a dust pan and brush are not available.
  - 5) Clean the area with disinfectant wipe (found in the spill kit).
- 6. **Product Evaluation**: review sharps safety products annually by,
  - a. Including licensed staff directly involved in the product use.
  - b. May set up demonstration to observe the products (by video or live) to assure that we are utilizing the simplest to use and the best devices available for our clinic setting.
  - c. The Immunization Coordinator and the Medical Director will evaluate the staff input for decision-making on implementing changes. Nursing

Administration with the assistance of the Immunization Coordinator will ensure effective implementation of these recommendations.

- 7. This facility identifies the need for changes in engineering control and work practices through:
  - a. Continual review of the BBP Exposure Log.
  - b. Grand Traverse County Safety Committee recommendations.
  - c. Periodic Staff meetings.
  - d. Annual assessment of products.

#### F. Personal Protective Equipment (PPE)

- 1. PPE is provided to our employees at no cost to them. Training in the use of the appropriate PPE for the tasks or procedures is provided during the annual Bloodborne Pathogen Training (Safety Day). In addition, the Director of Community Health or designee will instruct individual staff on an as-needed basis.
- 2. The types of PPE available to employees are as follows:

	· · · · · · · · · · · · · · · · · · ·
Personal Protective Equipment	Location
Gloves: Disposable and Reusable (Utility)	Each Clinic Room and Lab Area
Goggles/eye Protection	Labs
Fluid Resistant Lab Coat	Labs
Masks	Main Lab and front desk
CPR Masks	Each Emergency kits

- 3. PPE used in clinic services may be obtained through routine procedure of ordering supplies. A quantity of supplies will be maintained to reasonably anticipate staff needs.
- 4. Contact your immediate supervisor for specific equipment needs.
- 5. All employees using PPE must observe the following precautions:
  - a. Wash hands immediately or as soon as feasible after removal of gloves or other PPE.
  - b. Remove PPE after it becomes contaminated and before leaving the work area.
  - c. Used PPE may be disposed of in:

Gloves – Disposable	Waste Container
Gloves – Utility	Wash and disinfect if
	possible. Dispose of if
	damaged or torn.
Goggles	Reusable (may be disinfected)
Fluid Resistant Lab Coats	If contaminated, place in
	"Red Bio-bag" and arrange
	cleaning.
Masks	Waste Container
CPR Masks	Cleansed in a solution of 10%
	bleach.

- d. Wear appropriate **gloves** when it can be reasonably anticipated that there may be hand contact with blood or OPIM and when handling or touching contaminated items or surfaces, including times when your hands have open lesions. Replace gloves if torn, punctured, contaminated or if their ability to function as a barrier is compromised.
- e. Utility gloves may be decontaminated for reuse if their integrity is not compromised. Discard utility gloves if they show signs of cracking, peeling, tearing, puncturing or deterioration.
- f. Never wash or decontaminate disposable gloves for reuse.
- g. Wear appropriate **face and eye protection** when splashes, sprays, splatters or droplets of blood or other potentially infectious material (OPIM) pose a hazard to the eye, nose or mouth.
- h. Remove immediately or as soon as feasible any garment contaminated by blood or OPIM in such a way as to avoid contact with the outer surface.

#### G. Housekeeping

- 1. **Regulated waste** (Medical Waste) shall include: culture media, infectious agents, laboratory waste, discarded live and attenuated vaccines, needles, syringes, lancets, scalpels and any other material saturated with blood or body fluid.
- Plastic OSHA approved "Sharps Containers" shall be used for storage of needles, syringes, glass tubes, glass slides and lancets, discarded vaccine vials, and used vacutainer tubes.
- 3. All other paper and plastic generated in the clinic shall be placed in the regular trash containers which are lined with plastic bags, unless they are grossly saturated with body fluids or other contaminants. In the event of gross contamination, the disposable item shall be placed in a red bio-hazard bag and disposed of with other medical waste.
- 4. A dumpster of sufficient size shall be maintained by local waste haulers in accordance with local ordinances.
- 5. All Community Health staff shall be instructed on proper handling of Bio-Medical Waste.
- 6. **Broken glassware** which may be contaminated is picked up using mechanical means such as a brush and dust pan, vacuum or forceps.

#### 7. Work Surfaces

- a. Contaminated or potentially contaminated work surfaces shall be decontaminated with a disinfectant effective against Mycobacterium Tuberculosis and Hepatitis B.
- b. Frequency
  - 1) After the completion of procedures, immediately or as soon as feasible when surfaces are overtly contaminated.
  - 2) After any spill of blood or infectious material.
  - 3) At the end of every clinic day.

#### 8. Lab Cleaning

- a. Disposable gloves are to be worn for all cleaning procedures and discarded after use.
- b. Minimally: On a daily basis clean the Lab area, countertops, venipuncture chair and sinks with a disinfectant. Additionally, the infant scales, doorknobs and other surfaces may need to be cleaned depending on potential exposure.

#### 9. Exam Rooms

- a. Wipe down the tables between each client using disinfectant disposable cloths
- b. A clean, disposable barrier will be available for use on exam tables as needed for each client.
- c. The desk and counter area are cleaned and disinfected as needed between clients and at the end of each clinic day.

Disinfectant: May use household bleach in 1:10 dilution made fresh daily, or Sani-Cloth towelettes or other products that are effective against Mycobacterium Tuberculosis and Hepatitis B are acceptable.

#### H. Laundry

- 1. Fluid Resistant Lab coats used for blood draws and spinning/pouring of blood specimens will be routinely laundered by a local laundering facility.
- 2. Lab coats worn in clinic settings are not considered PPE and are laundered as other personal property.
- 3. The following laundering requirements must be met:
  - a. Handle contaminated laundry as little as possible, with minimal agitation.
  - b. Place wet contaminated laundry in leak-proof, labeled or color coded containers before transport.
  - c. Use red bags marked with Bio-Hazard symbol for grossly contaminated lab coats.
  - d. Wear appropriate PPE when handling and/or sorting contaminated laundry.

#### I. Labels

The following labeling method(s) is used in this facility:

- 1. Biohazard Material will be labeled or designated by
  - a. The universal "Biohazard" symbol (may be on a red or fluorescent red).
  - b. A Red Bag with the symbol on it.
- 2. Each employee is responsible for identifying biohazard risks and assuring that correct labeling is in place. Employees are to notify their supervisor if they discover regulated waste containers, refrigerators containing blood or OPIM, contaminated equipment, etc. without proper labels.

#### IV. HEPATITIS B VACCINATION

#### A. Administration

- 1. Human Resources Department of Grand Traverse County will provide the initial training to employees on Hepatitis B vaccinations, addressing the safety, benefits, efficacy, methods of administration and availability under the direction of the Health Department.
- 2. Each prospective new employee to the Health Department will complete an Immunity Assessment through the Immunization Clinic at the Health Department, as part of the pre-hire process employee health physical. A public health immunization nurse will assess the individual's vaccination status, job risks, and offer the vaccine as is appropriate.
- 3. The Hepatitis B vaccination series is available at no cost from the Grand Traverse County Health Department after training to employees identified in the Exposure Determination section of this plan. Vaccination is encouraged unless:
  - a. documentation exists that the employee has previously received the series,
  - b. antibody testing reveals that the employee is immune, or
  - c. medical evaluation shows that the vaccination is contraindicated.
- 4. However, if an employee chooses to decline vaccination, the employee must sign a copy of the declination form. Employees who decline may request and obtain the vaccination at a later date at no cost. Documentation of refusal of the vaccination is kept at the Human Resources Department.
- 5. Vaccination may be provided by the employee's private provider or by the Immunization Clinic at the Grand Traverse County Health Department.
- 6. One to two months after the completion of the series of Hepatitis B vaccine, the employee is recommended to have a titer (anti-HBs) drawn by the Health Department or the individual's private provider with results provided to Administration.
- 7. Individuals who have not developed a positive titer will be encouraged to complete a second complete series of Hepatitis B vaccines with a titer one to two months after the third injection per CDC recommendations.
- 8. Individuals who do not have a positive titer after the second complete series will be considered a non-responder.
- 9. Documentation of the vaccine series and the titer results will be maintained at Human Resources and in the MCIR to assure access to the information in the event of a blood-borne exposure incident.

#### B. Vaccination Option for Employees

- GTCHD will offer to all Health Department employees an option to receive the Hepatitis B series for those who have not yet received and desire to be vaccinated. Employees in job classifications as noted in Section II. Employee Exposure Determination will be highly encouraged to receive the series due to their noted risk of exposure.
- 2. Full training at pre-hire and annually and access to personal protective equipment shall be provided to all employees.

- 3. Because providing first aid for incidents which might involve the presence of blood or OPIM, documentation of any incident involving the provision of first aid will be reported to the employer and Human Resources before the end of the work day of the incident using the Supervisor's Incident Report form.
- 4. The report must include the names of all first aid providers who rendered assistance, regardless of whether personal protective equipment was used and must describe the first aid incident, including the time and date.
- 5. The full Hepatitis B vaccination series is to be made available as soon as possible, but not later than 24 hours to all unvaccinated first aid providers who have rendered assistance in any situation involving the presence of blood or OPIM regardless of whether or not a specific "exposure incident", as defined by the Standard, has occurred.
- 6. In the event of an actual, at risk exposure incident, the portion of the standard relating to post-exposure evaluation and follow-up would apply.

#### V. POST-EXPOSURE EVALUATION AND FOLLOW-UP

- A. Should an exposure incident occur, initiate first aid: wash or flush the area immediately with soap and water.
- B. Notify a supervisor and follow the "Post Exposure Evaluation and Follow up checklist".
- C. Supervisor or designee notifies the Medical Director of the circumstances surrounding the exposure to determine appropriate follow-up.
- D. A confidential medical evaluation and follow-up plan will be conducted by Munson Urgent Care/Occupational Health or Munson ED if after hours.
- E. Following the initial first aid, the exposed employee completes these activities with the assistance of a supervisor.
  - 1. Document the routes of exposure and how the exposure occurred.
    - a. Is it contaminated with blood or body fluid?
    - b. Whose blood or body fluid?
  - 2. Attempt to identity and document the source individual
    - a. Before the client leaves, let them know there has been an exposure to their blood (body fluid) and ask them for permission to test for Hep B, Hep C and HIV.
    - b. Obtain consent and make arrangement to have the source individual tested as soon as possible to determine HIV, HCV and HBV infectivity.
    - c. If the source individual is already known to be HIV, HCV and/or HBV positive, new testing need not be performed for the known positive disease.
    - d. Contact a supervisor for guidance to have one of the providers do the testing and counseling.
    - e. If the client refuses to be tested before leaving the clinic, provide the client name, address and telephone number to a supervisor or coordinator for a follow up communication with the source individual to encourage the lab draw.

f. Obtain a Release of Information to share the source's results with Occupational Health for the employee.

### VI. ADMINISTRATION OF POST-EXPOSURE EVALUATION AND FOLLOW-UP Follow PER085 Post-Exposure Evaluation and Follow Up Checklist

- A. The Director of Community Health or the employee's supervisor ensures that the health care professional(s) who will be responsible for the employee's Hepatitis B vaccination, post-exposure evaluation, and follow-up are given:
  - 1. A description of the employee's job duties relevant to the exposure incident.
  - 2. Route(s) and type of exposure.
  - 3. Circumstances of exposure.
  - 4. Relevant medical records of the employee, i.e. immunization status
  - 5. If possible, a result of the source individual's blood test.
- B. If Needle stick/Percutaneous Exposure should occur, the employee must:
  - 1. Follow first aid procedures of washing/cleaning area exposed, flushing with soap and water.
  - 2. Attempt to identify the source (which client?).
  - 3. Notify immediate supervisor. If possible, identification of source client will simplify the follow-up needed.
  - 4. Complete the Supervisor's Incident Report, contact the supervisor, and complete the Injury/Exposure log.
  - 5. Consult with the Medical Director and/or Urgent Care Occupational Health.
  - 6. Consult with Infectious Disease Physician if indicated (needing further direction or clarification or protocols).
- C. If Other Exposure (splash, smear, etc.) should occur:
  - 1. Follow all above steps, cleaning of exposed area and identifying source client.
  - 2. Consult with Medical Director regarding the type and risk of exposure.
  - 3. Recommendations for follow-up will be individualized based on above information.
  - 4. The employee may request follow-up at Urgent Care Occupational Health, if desired.
  - 5. Supervisor's Incident Report and Injury/Exposure Log should be completed.

### VII. PROCEDURES FOR EVALUATING THE CIRCUMSTANCES SURROUNDING AN EXPOSURE INCIDENT

- A. The Director of Community Health and Medical Director, together, will review the circumstances of all exposure incidents to determine:
  - 1. Engineering controls in use at the time.
  - 2. Work practices followed.
  - 3. A description of the device being used, protective equipment or clothing that was used at the time of exposure incident (i.e. gloves, eye shields).
  - 4. Location of the incident (i.e. clinic room, lab).
  - 5. Procedure being performed when incident occurred.
  - 6. Employee's training.

B. If it is determined that revisions need to be made, the Director of Community Health will ensure that appropriate changes are made to this ECP. (Changes may include an evaluation of safer devices, adding employees to the Exposure Determination List).

#### VIII. EMPLOYEE TRAINING

- A. All employees of GTCHD receive Blood-borne Pathogen Training at the time of hire in Human Resources and annually within their assigned department. The training will include approved curriculum items as stated by MIOSHA (epidemiology, symptoms and transmission of Blood-borne Pathogen diseases). In addition, the training program covers, at a minimum, the following elements:

  An explanation of:
  - 1. The Standard and a copy if requested.
  - 2. Our ECP and a copy if requested.
  - 3. Methods to recognize tasks and other activities that may involve exposure to blood and OPIM, including what constitutes an exposure incident.
  - 4. The use and limitations of engineering controls, work practices, and PPE.
  - 5. The selection and use of personal protective equipment, including types available, proper use, location within the facility, removal, handling, decontamination, and disposal of PPE.
  - 6. The Hepatitis B vaccine, including information on its efficacy, safety, method of administration, the risks and benefits of being vaccinated, and that the vaccine will be offered free of charge.
  - 7. The appropriate actions to take and persons to contact in an emergency involving blood or OPIM.
  - 8. The procedure to follow if an exposure incident occurs, including the method of reporting the incident and the medical follow-up that will be made available.
  - 9. The post-exposure evaluation and follow-up that the employer is required to provide for the employee following an exposure incident.
  - 10. The signs and labels and/or color coding required by the Standard and used at this facility, and
  - 11. An opportunity for interactive questions and answers with the person conducting the training session.
- B. Training materials for this facility are available electronically and are located in the OSHA manuals in the K/drive.

#### IX. RECORD KEEPING

- A. Training Records
  - 1. Training Records will be kept for at least **three (3) years** by the Safety Coordinator responsible for the Blood-borne Pathogen Training and by Human Resources.
  - 2. The Training Records include:
    - a. The dates of training sessions.
    - b. The contents or a summary of the training sessions.
    - c. The names and qualifications of persons conducting the training.

- d. The names and job titles of all persons attending the training sessions.
- 3. Employee Training Records are provided upon request to the employee or the employee's authorized representative within 15 working days. Such requests should be addressed to the Health Officer of the Grand Traverse County Health Department.

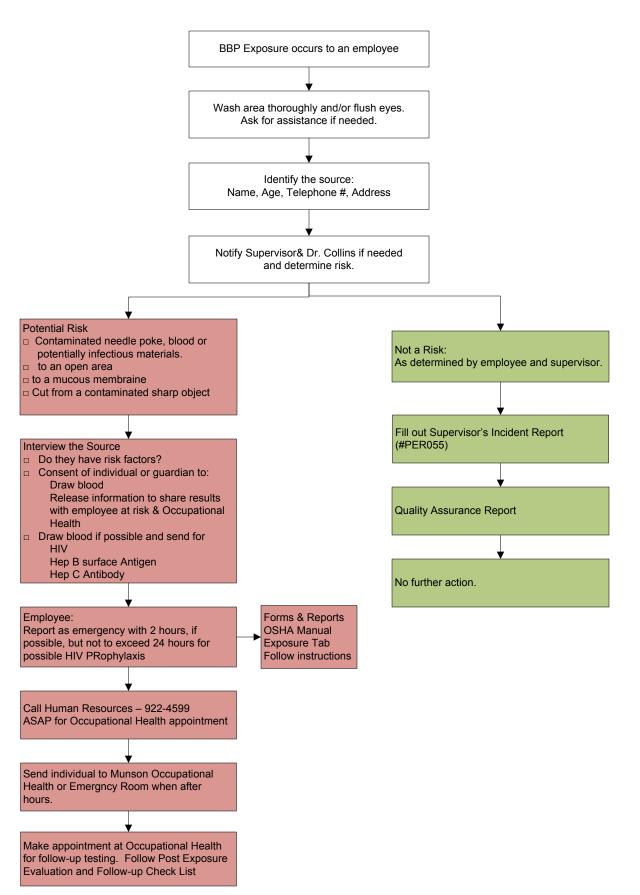

#### B. Medical Records

- 1. Medical Records are maintained for each employee with occupational exposure in accordance with Part 432/R325.52101 .52137, "Access to Employee Exposure and Medical Records".
- 2. Human Resources are responsible for maintenance of the required Medical Records. These confidential records are kept at the 400 Boardman, Grand Traverse County offices for at least the duration of employment plus 30 years.
- Employee Medical Records are provided upon request of the employee or to anyone having written consent of the employee within 15 working days. Such requests should be sent to the Grand Traverse County Human Resources Department.

#### C. MIOSHA Record Keeping

- 1. An exposure incident is documented according to the requirements stated in MIOSHA's Record Keeping Requirements (Part 11). This determination and the recording activities are done by the Director of Community Health or designee.
- D. Injury/Exposure Log, inclusive of sharps injuries
  - The Injury/Exposure Log is established and maintained for recording percutaneous injuries from contaminated sharps, along with other types of BBP Exposures. The log includes at a minimum:
    - a. Type and brand of device involved in the injury.
    - b. Department or work area where the exposure occurred.
    - c. Explanation of how the incident occurred.
  - 2. The log is recorded and maintained to protect the confidentiality of the injured employee.
  - 3. The Director of Community Health or designee is responsible for the maintenance of the Injury/Exposure Log for Community Health.

### GRAND TRAVERSE COUNTY HEALTH DEPARTMENT ALGORITHM FOR AN EXPOSURE TO A BLOODBORNE PATHOGEN

# CHEMICAL HYGIENE PLAN GRAND TRAVERSE COUNTY HEALTH DEPARTMENT

#### GRAND TRAVERSE COUNTY HEALTH DEPARTMENT CHEMICAL HYGIENE PLAN

#### **TABLE OF CONTENTS**

#### I. PREFACE

- A. The Hazard Communication Plan (Chemical Hygiene Plan) is required by Part 431 of the Michigan Occupational Safety and Health Act governing hazardous work in laboratories and supersedes Federal regulations in Michigan to ensure that information is transmitted to employees about the chemical hazards that they are exposed to. This is accomplished through labels, Material Safety Data Sheets, instruction, written information, training and other forms of warning.
- B. The Grand Traverse County Health Department (GTCHD) does not warehouse supplies. The following chemicals and hazardous materials are kept on site:
  - 1. Cleaning materials in quantities only for immediate use.
  - 2. Office supplies in quantities for one (1) month's use.
  - 3. Oxygen and Nitrous Oxide (Dental Clinic only) for one (1) month's use.
  - 4. Environmental Health -- See Attachment A one (1) month's supply.

#### II. BASIC RULES

The Standard requires that GTCHD employees work cooperatively in providing a safe and healthful work environment with training, evaluations and periodic meetings the ensure that all staff are aware of and comply with safeguards that are in place to limit accidents and injuries by the following basic rules (MIOSHA Rule 325.70113, Part E):

- 1. Institute a Chemical Hygiene Program at the work site.
- 2. Avoid underestimation of risk.
- 3. Provide adequate ventilation when working with chemicals.
- 4. Minimize chemical exposures.
- 5. Observe the Permissible Exposure Limits (PEL's) and Threshold Limit Values (TLV's) as defined by the MSDS for all chemicals in use at the worksite.

### **III. PROCUREMENT, HAZARD DETERMINATION AND CHEMICAL INVENTORY** (MIOSHA Rule 325.70113, Part D, No.2)

#### A. Procurement

Before a substance is received, information on proper handling, storage and disposal should be known to those who will handle, store, work with or dispose of the substance.

#### B. Storage

#### 1. Community Health

Community Health utilizes office supplies (chemicals such as White Out, etc. throughout the building. Cleaning supplies are stored in the Custodial closet. Additional cleaning supplies, in small quantity and low toxicity, may be stored under the sink in the laboratory. All other chemicals are stored in the Laboratory are in the Reproductive Health Clinic area.

#### **Laboratory Storage**

- a. Amounts stored should be as small as practical.
- b. Laboratory means a facility where the laboratory use of hazardous chemicals occurs. It is a workplace where relatively small quantities of hazardous chemicals are used on a non-production basis.
- c. Laboratory Scale means work with substances in which the containers used for reactions, transfers and other handling of substances are designed to be easily and safely manipulated by one (1) person

#### 2. Environmental Health

In the Environmental Health Division custodial supplies are kept in the Custodial Storage room. All other chemicals, those used by the Environmental Health staff for job related duties, are stored in a closet in the locked office area of Environmental Health, inaccessible to those not authorized to use them

#### 3. Distribution

When chemicals are hand carried outside of the immediate work area, the container should be place in an outside container or bucket. Freight only elevators should be used if possible.

#### C. Hazard Determination

1. Information supplies by the manufacturers will be relied upon for the hazard determination.

#### 2. Definitions

#### a. A Hazardous Chemical

Means a chemical for which there is statistically significant evidence based on at least one study conducted in accordance with established scientific principles that acute or chronic health effects may occur in exposed employees.

#### b. A **Health Hazard**

Includes chemicals which are carcinogens, toxic or highly toxic agents, reproductive toxins, irritants, corrosives, sensitizers, hepatotoxins, nephrotoxins, neurotoxins, agents which act on the hematopoietic systems and agents which damage lungs, skin, eyes or mucous membranes.

#### c. A Physical Hazard

Means a chemical for which there is scientifically valid evidence that it is a combustible liquid, a compressed gas, explosive, flammable, organic peroxide, an oxidizer, pyrophoric, unstable (reactive) or water reactive.

- 3. Laboratory uses of hazardous chemicals which provide no potential for employee exposure. Examples of such condition might include:
  - a. Procedures using chemically impregnated test media such as dip-andread tests where a reagent strip is dipped into the specimen to be tested, and
  - b. Commercial prepared kits, such as pregnancy tests, in which all the reagents needed to conduct the test, are contained in the kit.

- c. Medications and drugs are considered exempt from the Hazard Communication Plan when it is determined that are in solid, final form for direct administration to the patient (i.e., tablets, pills and capsules).
- d. Consumer products, when it is determined that they are used in the same manner and with no more frequency than a normal consumer would use them.
- 4. It is the policy of GTCHD to request a Material Safety Data Sheet (MSDS) for each chemical that is used in the workplace.

#### D. Chemical Inventory

The Chemical Inventory is monitored and training updates are coordinated by Grand Traverse County (GTC) Safety Coordinator whenever one or more of the following occurs:

- A new hazard is introduced into the workplace.
- A hazard has been removed from us in the workplace.
- The hazard determination process is reviewed during the Annual Safety Self-inspection to ensure the chemical inventory is current ant that any new safety situations are promptly addressed.

#### IV. HOUSEKEEPING, INSPECTIONS AND MAINTENANCE

(MIOSHA Rule 325.70113, Part D, No.4)

- A. Housekeeping
  - 1. Floors should be cleaned regularly.
  - 2. The cleaning is done daily through a contract agency of GTC.
- B. Inspections
  - 1. Housekeeping
    - a. Inspections are held quarterly.
    - b. A Housekeeping log is maintained to address daily concerns. The log is maintained and monitored by Administration.
    - c. Facilities Management is responsible for oversight of the housekeeping staff. Meetings are scheduled as needed between Health Department Administration and Facilities Administration.
  - 2. Passageways
    - a. Stairways and hallways should not be used as storage areas.
    - b. Access to exits, emergency equipment and utility controls should never be blocked.
    - c. The inspection schedule for GTCHD is daily. Violations should be reported to supervision as soon as noted.
  - 3. Equipment Maintenance
    - a. Safety equipment are inspected by the following schedule:
      - Semi-annually: Spill Kits, First Aid Kits
      - Monthly: Fire Extinguishers, A.E.D.

 Other building mechanical equipment is routinely maintained by Facilities Management following the recommended maintenance schedule per State and local codes.

#### b. Records

- Of safety equipment inspection are maintained by the Grand Traverse County Safety Coordinator.
- Of building mechanical equipment are maintained by Grand Traverse County Facilities Manager.

#### V. HAZARD LABELING SYSTEM

(MIOSHA Rule 325.70109 & 325.70113, Part D, No. 8)

- A. Labeling Standards
  - 1. In accordance with the Hazardous Work in Laboratories Standard, Chemical Hazard Labels are to be legible, in English and displayed either on the container (of the product) or readily available in the work area throughout each work shift.
    - a. The immediate work is defined as the room where the product will be used by the employee.
    - b. In keeping with the interpreted intent of the law, it is the policy to ensure that the employee is familiar with the hazards they have contact with and that there is a label available to remind or warn them of the hazards.
  - 2. A label will be provided for each chemical product that will include:
    - a. An indication of the hazards presented by the product in each of four (4) areas: fire, reactivity, health and special hazards.
    - b. Special safety equipment which is required to handle the hazardous product must be indicated on the label.
- B. Types of Signs Required

Prominent signs and labels of the following types must be posted:

- 1. Telephone Numbers:
  - a. Emergency telephone numbers of emergency personnel/facilities.
  - b. 24 Hour numbers for supervisors.
  - c. 9-911, 9-911 (Hazmat).
- 2. Identity labels showing contents of containers labeled Biohazard (including waste receptacles) and associated hazards.
- 3. Location Signs
  - a. For Safety equipment and First Aid equipment including Eye Wash Stations.
  - b. A.E.D. and Spill Kits.
  - c. Severe Weather Rooms.
  - d. Exits.
  - e. Area where food and beverage consumption and storage are not permitted.
- 4. Warning Signs

At areas or equipment where special or unusual hazards exist

#### VI. CHEMICAL SPILL RESPONSE

(MIOSHA Rule 325.70113, Part D, No. 9)

- A. Standards
  - 1. The initial step in controlling any type of spill is prevention.
  - 2. All hazardous chemicals should be handled with care and with appropriate PPE.
  - 3. The cleanup process for spills is much more costly than slowing down to be cautious when working with these items.
- B. Spill Control Policy for Grand Traverse County Health Department
  - 1. Standards
    - a. All accidents or near accidents should be carefully analyzed with the results distributed to all who might benefit.
    - b. MSDS
      - The MSDS is the approved authority for first response by staff.
      - In the event of a chemical spill, the Material Safety Sheet will be referred to for proper spill response procedures. These will include:
        - Appropriate materials to be used for collection of the material (i.e., absorbents, spill kit materials, etc.)
        - Protective measures to be taken with the particular product.
  - 2. Response to Routine/Small Spills
    - a. Spill Kit Locations:
      - Each Lab (WIC and Reproductive Health), Janitor's closet, Immunization Room, Front Desk, Downstairs, Administration, each Adolescent Health Center, and on the wall in the main corridor for Environmental Health.
    - b. Determine what has been spilled and locate the Material Safety Data Sheet (MSDS) for the product.
      - MSDS are located in the large Reproductive Health Lab, Environmental Health and Adolescent Health Centers
    - c. Provide adequate ventilation as described on the MSDS as appropriate.
    - d. Contain the spill from spreading with us of a Spill Kit absorbent material.
    - e. Cleanup personnel must use proper personal protective equipment.
    - f. Dispose of cleanup materials as recommended by the manufacturer and in accordance with local, State and Federal regulations.
  - 3. Response to Larger Spill or Toxic Materials
    - a. Determine what has been spilled and locate the Material Safety Data Sheet (MSDS) for the product.
      - MSDS are located in the Large Reproductive Health Lab, Environmental Health and Adolescent Health Centers.

- b. If the product is toxic or there is a larger quantity of potentially toxic material:
  - Evacuate personnel from the area.
  - Notify immediately the following:
    - Clinic lead, coordinator or their designee.
    - Personnel in the immediate area.
    - Health Department Administration to assist with evacuation of immediate area or building if necessary.
  - Provide adequate ventilation as described on the MSDS.
  - Contain the spill from spreading with use of Spill Kit, absorbent material.
  - Cleanup personnel must use proper personal protective equipment as described for spill response (within the MSDS).
  - If the MSDS is incomplete, the Grand Traverse County Hazmat Team or manufacturer may be contacted for further information as determined by Administration.
  - Dispose of cleanup materials as recommended by the manufacturer and in accordance with local, State and Federal regulations. Ensure that materials saturated with flammable liquids are placed into containers that will limit the potential for combustion and subsequent fire hazards.
  - An incident report (#PER055) must be completed and turned in to management for any spill beyond small/routine spills.
    - For review and discussion with other staff so that recurrence of the incident can be avoided.
    - For further training of staff members.
    - For review of product information to consider the necessity of continuing use of that specific product.
- 4. Unusual or High Quantity Spills
  - Call **9-911** and request Hazmat Team.
  - Notify Health Department Administration, supervision as listed above.

#### VII. MEDICAL PROGRAM

(MIOSHA Rule 325.7018 & 325.70113, Part D, No. 5)

- A. Medical Surveillance
  - GTCHD does not purchase, house or utilize chemicals of sufficient quantity or type to be considered at risk for toxic effects. Therefore, medical surveillance is not part of our policy or procedures at this time.
- B. Chemical Exposure
  - 1. Employees who have a chemical material exposure will receive immediate First Aid. Emergency Dispatch (9-911) should be used for immediate medical care and transport to Munson Emergency Department.

- 2. Further evaluation will be done through Munson Medical Center Occupation Health or Munson Emergency Department, as appropriate.
- 3. Form PER088 should be filled out by the immediate supervisor following an employee exposure.

#### VIII. PPE SELECTION, PROVISION, USE, TRAINING and TYPES of PPE

(MIOSHA Rule 325.70108 & 325.70113, Part D, No. 6)

#### A. Pre Selection

- 1. The PPE for employees has been selected based upon the usual type of task being performed and the degree of exposure anticipated from the hazard to which the employee may be exposed.
- 2. Equipment is maintained in accordance with manufacturer's guidelines to ensure its proper functioning and is authorized potential risks.
- 3. The Safety Committee for GTC is authorized to assist with determining the PPE available to staff and assessing potential risks.
- 4. PPE are available throughout the agency in areas that there is a reasonable expectation of need (with Spill Kits, in Labs).

#### B. Provision

- 1. Personal protective Equipment (PPE) is provided to employees of GTCHD for the protection of eyes, face, head and extremities, where there is a potential for injury or impairment in the function of the body through absorption, inhalation or physical contact of a chemical or blood-borne pathogen.
- 2. All PPE is provided at no fee to employees of GTCHD.
- 3. Examples of PPE provided by GTCHD and their intended use are as follows:
  - a. Gloves (latex free): Located in all exam rooms and labs.
  - b. Safety glasses: Located in Reproductive Health Labs and WIC Lab.
  - c. Fluid Resistant Lab Coats: Located in Reproductive Health Labs.
  - d. Face Masks: Located in Reproductive Health Lab and all Emergency kits.

#### C. Use

- 1. The use of Personal Protective Equipment is considered to be a condition of employment
- 2. Employees who choose to disregard the importance of Personal Protective Equipment may be subject to reprimand and potential dismissal from their position.

#### D. Training

- 1. Each employee will participate in an annual training regarding Personal Protective Equipment.
- 2. The training will be tailored to the staff in each Division and will include:
  - a. When PPE is required to be used.
  - b. What PPE is necessary for specific tasks?
  - c. How to properly wear, use and adjust PPE.

- d. The proper care, maintenance, limitations, useful life and disposal of PPE.
- e. Other items designated by the Division supervisor may be required.

#### E. Types of PPE

- 1. Lab coats and other appropriate PPE.
  - a. Lab coats work on a daily basis in clinics or other workstations are not considered PPE.
  - b. Fluid resistant Lab coats worn in laboratory settings are considered PPR.
  - c. Lab coats (PPE type), gowns or other protective clothing are worn whenever there is the reasonable potential for the soiling of clothes when working with hazardous chemicals.
  - d. The protective garments have been selected to meet the type and amount of soiling expected to be present during a specific task.
  - e. The Material Safety Data Sheets of hazardous chemicals will be reviewed to select proper PPE for a given product.
- 2. Protective Eye Wear and Masks
  - a. Protective eye wear and/or masks are worn whenever there is the potential for the generation of splashes, spills, spray, splatter, droplets or aerosols of chemicals and there is the potential for eye, nose or mouth contamination.
  - b. Appropriate eye wear or masks will be worn as recommended by the manufacturer of a hazardous product.

#### 3. Gloves

- a. When working with hazardous chemicals, gloves will be worn according to manufacturer recommendations.
- b. General-purpose gloves, not used for healthcare purposes, may be decontaminated and reused.
- c. Gloves are not to be used if they are peeling, cracking or discolored, or if they have punctures, tears or other evidence of deterioration.

#### F. Maintenance and Replacement of PPE

- 1. Employees will immediately notify supervision of any damage or defects that make the PPE incapable of properly protecting them.
- 2. Repair or replacement of Personal Protective Equipment is provided by the employer as needed to maintain its effectiveness.
- 3. Necessary cleaning, laundering or disposal of Personal Protective Equipment is provided by GTCHD.
- 4. Laundering of linens is not to be done in a home setting.
- 5. Employees will not be responsible for the cost of any PPE that is required to protect them from exposure to chemical or bio-hazards in the workplace.

#### IX. RECORDS (MIOSHA Rule 325.7011 & 325.70113, Part D, No. 7)

- A. Accident Records (PER055) (Incident Report)
  - 1. Accident Records/Incident Report (PER055) must be complete when:
    - a. An incident has occurred that required medical care of an employee or client.

- b. When there is a potential of injury becoming evident in the future even if medical care was provided or declined.
- c. When Emergency Dispatch has been notified.
- B. Chemical Hygiene Plan Records
  - 1. Must document that the facilities and precautions were compatible with current knowledge and regulations.
- C. Inventory and Usage Records For High-risk Substances Will be Kept
  - 1. Not applicable (GTCHD does not have at-risk products).
  - 2. If GTCHD ordered, stocked or used material of a high risk nature, then record of the amounts on hand, amounts used and the names of the workers involved (if an accident occurs) will be maintained.

#### D. Medical Records

- Human Resources of GTC has on file and maintains for each employee an
  accurate record of work place injury or exposure as well as measurements
  taken to monitor employee exposures and many medical consultation or
  examination. This would include tests or written opinions required by this
  Standard.
- 2. Human Resources will assure that such records are kept, transferred and made available in accordance with State and Federal regulations for at least the duration of employment plus 30 years (MIOSHA Rule 325.70108).

#### E. Training Records

- 1. Training Records will include the following information and will be maintained three (3) years from the date on which the training occurred.
- 2. Documentation of the training will be maintained in a Master Training file. (maintained for Community Health by the Director of Community Health and for Environmental Health and Animal Control by the Environmental Health Director.
- 3. Training Records will include:
  - a. The dates of the training sessions.
  - b. The contents or a summary of the training sessions.
  - c. The names and qualifications of persons conducting the training.
  - d. The names and job titles of all persons attending the training sessions.
- F. Material Safety Data Sheets will be retained for 30 years from the date of removal from the active file.

#### X. MATERIAL SAFETY DATA SHEETS (MIOSHA Rule 325.70109)

- A. Material Safety Data Sheets are maintained at GTCHD to comply with MIOSHA's Hazardous Work in Laboratories Standard.
  - 1. Community Health
    - MSDS book is maintained in the Laboratory of Reproductive Health.
  - 2. Environmental Health
    - MSDS Book is maintained in the Staff Conference room, library section.

- B. Material Safety Data Sheets contain useful information regarding the hazards associated with products or chemicals used in the facility. Employees are not required to memorize the information contained within the data sheets but are provided with training so that they can locate them and find information such as:
  - 1. Flammability hazard.
  - 2. Reactivity hazard.
  - 3. Health hazard.
  - 4. Precautions for safe handling, use and control measures.

This information will ensure that chemicals and products are used in a safe manner and that employees are aware of the hazards associated with those items.

- C. It is the responsibility of the Grand Traverse County Health Department to assure that there is a MSDS for each hazardous chemical or product that is used in the facility. The suppliers and manufactures of such products are required to supply Material Safety Data sheets along with the first order of each product. (All P.O. forms require new orders to send MSDS sheets.) If a Material Safety Data Sheet is not received with a first order, one will be requested.
- D. In order for hazard labeling to be completed, certain information must be provided on the MSDS. If any necessary information is missing, the manufacturer will be contacted in order to obtain it.
  - 1. The location of the Material Safety Data Sheets is posted on the Employee Bulletin Board.
  - 2. When new or revised data sheets are received they should be posted on the Employee Bulletin Board for review by employees before they are included in the designated MSDS file.
- E. If an MSDS is removed because it has been revised or the product is no longer used, the data sheet must be marked with the date it was removed and then placed in a separate file of archived data sheets. These data sheets are to be retained for 30 years from the date of removal from the active file.
- F. Location
  - 1. The MSDS book for Community Health is located on a bracket in the Reproductive Health Lab.
  - 2. The MSDS book for Environmental is located on the file cabinet in the Sanitarian's work area.
  - 3. The MSDS book for Animal Control is located on the book shelf entering the Animal Control Officer's cubical.

#### XI. WASTE MANAGEMENT (MIOSHA Rule 325.70113, Part D, No.9)

- A. General Information
  - Chemical waste (or hazardous products) is disposed of in accordance with information provided on the MSDS by the products manufacturer at GTCHD. Should the MSDS fail to provide adequate instruction, the manufacturer is contacted by telephone for further information on proper disposal of the product.

2. If the chemical waste has become contaminated with blood or other potentially infectious materials, then it will be disposed of in accordance with the guidelines set forth in the Medical Waste Management Plan located in the OSHA Manual in Reproductive Health Lab.

#### B. Content

The waste disposal program at GTCHD is contracted through a licensed/certified Waste Management contractor that collects the waste and disposes in accordance with local ordinance and DOT regulations.

#### C. Frequency of Disposal

- Waste should be removed from laboratories to a central waste storage on an as needed basis. Waste is not allowed to accumulate in the laboratory or useable areas but is placed in appropriate containers and removed to Medical Waste Disposal packaging, the dumpster or other appropriate disposal.
- 2. Disposal by recycling or chemical decontamination should be used when possible.
- 3. Grand Traverse County Health Department's Waste Disposal Plan is located with Resource Management and includes, at a minimum, paper, cardboard and household batteries.

#### XII. EMPLOYEE INFORMATION AND TRAINING

(MIOSHA Rule 325.70113, Part D, No. 10)

- A. Employee Training
  - 1. The Director of Community Health and the Environmental Health Director will coordinate and maintain records of training conducted for GTCHD.
  - 2. The training and education program will be an ongoing and continuing activity.

#### B. Frequency of Training

- 1. Before starting work, at the time of their initial assignment, each new employee of GTCHD will attend a Safety Orientation.
- 2. Before any new hazardous chemical is introduced into the workplace, each employee of GTCHD will be given information as during the initial Safety Class.

#### C. Content of Training

- 1. Each employee will be given information on:
  - a. Location and availability of this Chemical Hygiene Plan.
  - b. Details of the written Chemical Hygiene Plan.
  - c. Chemicals and hazards in the workplace.
  - d. PEL's for MIOSHA regulated substances or exposure limits in use at the GTCHD (located in MSDS).
  - e. How to lessen or prevent exposure to these chemicals.
  - f. Signs and symptoms associated with exposure to hazardous chemicals
  - g. What Grand Traverse County has done to lessen or prevent exposure to these chemicals?

- h. Protective measures employees can take to protect themselves from chemical exposures, such as PPE, work practices and emergency procedures.
- Methods and observation that may be used to detect the presence of or release of a hazardous chemical such as monitoring and the visual or odor of hazardous chemicals when being released.
- j. Procedures to follow if they are exposed.
- k. How to read and interpret labels and MSDS.
- I. Where to locate MSDS at GTCHD and from whom they may obtain copies.
- 2. The employee will be informed that:
  - a. GTCHD is prohibited from discharging or discriminating against an employee who exercises the rights regarding information about hazardous chemicals in the workplace.
  - b. As an alternative to requesting an MSDS from the GTCHD, the employee may obtain a copy from the Michigan Department of Health and Human Services or at <a href="https://www.msds.pdc.cornel.edu">www.msds.pdc.cornel.edu</a>

#### APPROVAL FORM

This approval form is to be signed by the Health Officer and the chairperson of your agency's local governing entity. Completion of this form is required and submitted to MDHHS with the LHD Plan of Organization. If this Plan of Organization or the Health Officer changes subsequent to submission to the MDHHS Office of Local Health Services, this approval form must be re-signed by the appropriate local authorities referenced herein and re-filed with the MDHHS Office of Local Health Services.

I have reviewed the Plan of Organization for the Grand Traverse County Health Department

The Plan and related documentation accurately reflect the organization of services and programs for the area served by the local health department. We affirm this Plan, as submitted, fulfills all the requirements set forth in the LHD Plan of Organization Guide.

### DEPARTMENT OF HEALTH AND HUMAN SERVICES LANSING

NICK LYON DIRECTOR

October 13, 2015

Wendy Trute, MPH, CPHA, Health Officer/Director Grand Traverse County Health Department 2600 LaFranier Road, Suite A Traverse City, MI 49686

Dear Ms. Trute:

Enclosed is our final report from the Michigan Department of Health and Human Services audit of the Grand Traverse County Health Department WIC and Family Planning Programs for the period October 1, 2013 through September 30, 2014.

The final report contains the following: description of agency; funding methodology; purpose; objectives; scope and methodology; conclusions, findings and recommendations; Statements of Grant Program Revenues and Expenditures; and Corrective Action Plans. The conclusions, findings, and recommendations are organized by audit objective. The Corrective Action Plans include the agency's paraphrased response to the Preliminary Analysis.

Thank you for the cooperation extended throughout this audit process.

Sincerely,

Debra S. Hallenbeck, Manager Ouality Assurance and Review

Deha S. CHallenberk

Bureau of Audit, Reimbursement and Quality Assurance

Enclosure

cc: Stan Bien, Director, WIC Division
Paulette Dobynes Dunbar, Manager, Division of Family and Community Health
Deanna Charest, Manager, Reproductive and Preconception Health Unit
Pam Myers, Director, Bureau of Audit, Reimbursement and Quality Assurance
Keith Rubley, Auditor, Quality Assurance and Review
Kaycie Strawn, Auditor, Quality Assurance and Review
Steve Utter, Financial Analyst, Division of Family and Community Health

### Audit Report

### Grand Traverse County Health Department WIC & Family Planning Programs

October 1, 2013 – September 30, 2014

#### **DESCRIPTION OF AGENCY**

The Grand Traverse County Health Department (Health Department) is governed under the Public Health Code, Act 368 of 1978. The Health Department is a Special Revenue Fund of Grand Traverse County, which is the reporting entity, and the administrative office is located in Traverse City, Michigan. The Health Department operates under the legal supervision and control of the Board of Health, which is comprised of commissioners of Grand Traverse County. The Health Department provides community health program services to the residents of Grand Traverse County.

#### FUNDING METHODOLOGY

The Health Department services are funded from local appropriations, fees and collections, and grant programs administered through the Michigan Department of Community Health (MDCH). MDCH provided the Health Department with grant funding monthly based on Financial Status Reports in accordance with the terms and conditions of each grant agreement and budget.

The WIC Program was funded by MDCH Grant Funds and Other Local Funds. Grant funding from MDCH for the WIC Program is federal funding under federal catalog number 10.557.

The Family Planning Program was funded by MDCH Grant Funds, First and Third Party Fees and Collections, Local and Other Revenue. Grant funding from MDCH for Family Planning Program is federal funding under federal catalog numbers 93.217 and 93.994, and is subject to performance requirements. That is, reimbursement from MDCH was based upon the understanding that a certain level of performance (measured in caseload established by MDCH) had to be met in order to receive full reimbursement of costs (net of program income and other earmarked sources) up to the contracted amount of grant funds prior to any utilization of local funds.

#### PURPOSE AND OBJECTIVES

The purpose of this audit was to assess the WIC and Family Planning Programs internal controls and financial reporting, and to determine the MDCH shares of WIC Program and Family Planning Program costs. The following were the specific objectives of the audit:

- 1. To assess the Health Department's effectiveness in establishing and implementing internal controls over the WIC and Family Planning Programs.
- 2. To assess the Health Department's effectiveness in reporting their WIC Program and Family Planning Program financial activity to MDCH in accordance with applicable MDCH requirements and agreements, applicable federal standards, and generally accepted accounting principles.
- 3. To determine the MDCH shares of cost for the WIC and Family Planning Programs in accordance with applicable MDCH requirements and agreements, and any balance due to or due from the Health Department.

#### SCOPE AND METHODOLOGY

We examined the Health Department's records and activities for the fiscal period October 1, 2013 to September 30, 2014. Our review procedures included the following:

- Reviewed the most recent Health Department Single Audit report for any WIC Program or Family Planning Program concerns.
- Reviewed the completed internal control questionnaire.
- Reconciled the WIC and Family Planning Programs Financial Status Reports (FSRs) to the accounting records.
- Reviewed a sample of payroll expenditures.
- Tested a sample of expenditures for program compliance and adherence to policy and approval procedures.
- Reviewed indirect cost and other cost allocations for reasonableness, and an equitable methodology.
- Reviewed building space/lease costs for proper reporting and compliance with Federal requirements.
- Reviewed WIC equipment inventory and general Health Department equipment inventory records.
- Reviewed Family Planning billing and collection of fees, and collection of donations.

Our audit did not include a review of program content or quality of services provided.

### CONCLUSIONS, FINDINGS AND RECOMMENDATIONS

#### INTERNAL CONTROLS

**Objective 1:** To assess the Health Department's effectiveness in establishing and implementing internal controls over the WIC and Family Planning Programs.

Conclusion: The Health Department was generally effective in establishing and implementing internal controls over the WIC and Family Planning Programs. However, we noted exceptions related to billings for Family Planning Program services (Finding 1) and the lack of an administration approved policy for setting Family Planning Program fees lower than cost (Finding 2).

#### Finding

#### 1. Improper Billings to Third Parties

The Health Department did not bill Medicaid at the total amount of charges.

The 2013 Michigan Title X Family Planning Program Standards and Guidelines Manual, Section 6.3.1 "Charges, Billing, and Collections" Paragraph I. states, "Bills to third parties **must** show total charges without applying any discount."

Bills to Medicaid are based on the amount that Medicaid is expected to reimburse the Health Department.

#### Recommendation

We recommend that the Health Department comply with the Michigan Title X Family Planning Program Standards and Guidelines manual and bill all third parties, including Medicaid, for the total amount of charges.

#### **Finding**

## 2. No Administration Approved Policy for Setting Family Planning Program Fees Lower Than Cost

The Health Department set their Family Planning Program fees below the cost with no administration approved policy designating the percentage of the cost the fee schedule is to represent.

The 2013 Michigan Title X Family Planning Program Standards and Guidelines Manual, Section 6.3.1 "Charges, Billing and Collections" Paragraph B. states, "If the agency chooses to set fees lower than what is required to recover actual costs, the agency **must** have an administration approved policy in place designating the percentage of the cost the fee is to represent."

#### Recommendation

We recommend that the Health Department comply with the Michigan Title X Family Planning Program Standards and Guidelines Manual and implement an administration approved policy for designating the percentage of the cost the fee is to represent if the Health Department chooses to set fees lower than what is required to recover actual costs.

#### FINANCIAL REPORTING

**Objective 2:** To assess the Health Department's effectiveness in reporting their WIC Program and Family Planning Program financial activity to MDCH in accordance with applicable Department of Community Health requirements and agreements, applicable federal standards, and generally accepted accounting principles.

Conclusion: The Health Department generally reported their WIC Program and Family Planning Program financial activity to MDCH in accordance with applicable Department of Community Health requirements and agreements, applicable federal standards, and generally accepted accounting principles. However, we found three exceptions related to the following: an excess internal service fund (Finding 3), leave time allocated based on budgeted FTEs (Finding 4), and termination costs improperly reported (Finding 5).

#### **Finding**

#### 3. Excess Internal Service Fund

Grand Traverse County's Information Technology Internal Service Fund had a working capital reserve that exceeded the allowable amount as of December 31, 2013 according to OMB Circular A-87.

Grand Traverse County charges most Grand Traverse County Departments (including the Health Department) for information technology support. The County places the funds received from the County Departments in the Information Technology Internal Services Fund. Based on the December 31, 2013 financial statements and the report issued by MGT of America, the County had accumulated an excess balance in the fund.

OMB Circular A-87 (located at 2 CFR Part 225), Appendix C, Sections G. 3. and G. 4. require comparisons of the charges to the actual allowable costs, and adjustments by one of several methods. Additionally, OMB Circular A-87, Appendix C, Section G. 2., allows for the establishment and maintenance of a reasonable level of working capital reserve for internal service funds. According to OMB Circular A-87, a working capital reserve as part of retained earnings of up to 60 days cash expenses for normal operating purposes is considered reasonable.

According to Grand Traverse Internal Services Fund Summary for the Year Ended December 31, 2013, operating expenses were \$1,428,486 for the Information Technology Internal Services Fund which equates to a 60-day requirement of \$238,081. However, as of December 31, 2013, Grand Traverse County's Information Technology Internal Services Fund had a working capital reserve of \$298,885. Accordingly, the working capital reserve exceeded the allowable amount by \$60,804, and reductions are needed to achieve compliance with OMB Circular A-87.

#### Recommendation

We recommend that Grand Traverse County devise a plan to ensure the Information Technology Internal Service Fund working capital reserves is reduced to the allowable limit (60 days cash expenses) by FYE 2017 by either cash refunds or adjustments to future billing rates/allocations.

#### **Finding**

#### 4. Leave Time Allocation Based on Budgeted FTEs

The Health Department allocated employee leave time to the WIC and Family Planning Programs based on budgeted FTEs rather than actual time worked in the Programs.

The Health Department's contract with MDCH (Part II, Section III, Part A) requires compliance with OMB Circular A-87 (located at 2 CFR Part 225). For costs to be allowable under Federal awards, costs must be allocated in accordance with relative benefits received,

and must conform to any limitations or exclusions set forth in OMB Circular A-87. According to OMB Circular A-87, Appendix B, Section 8. d. (2):

The cost of fringe benefits in the form of regular compensation paid to employees during periods of authorized absences from the job, such as for annual leave, sick leave, holidays, court leave, military leave, and other similar benefits are allowable if: They are provided under established written leave policies; the costs are equitably allocated to all related activities, including Federal awards; and, the accounting basis (cash or accrual) selected for costing each type of leave is consistently followed by the government unit.

The Health Department allocates leave time for each employee based on a budgeted full time equivalent (FTE) percentage. Leave hours are multiplied by the budgeted FTE percentage to allocate costs to each Health Department program.

In order for the Health Department to ensure that leave time is allocated equitably to all benefitting programs, they should analyze and update FTE percentages at least once every quarter based on actual time worked.

#### Recommendation

We recommend that the Health Department implement policies and procedures to ensure the leave time allocation percentages are updated at least quarterly based on actual time worked so leave time is equitably allocated to all benefiting programs.

#### **Finding**

#### 5. Termination Costs Improperly Reported

The Health Department improperly reported termination costs as a direct expense on the FSRs.

The Health Department's contract with MDCH (Part II, Section III, Part A) requires compliance with OMB Circular A-87 (located at 2 CFR Part 225). According to OMB Circular A-87, Appendix B, Section 8. d. (3):

Payments for unused leave when an employee retires or terminates employment are allowable in the year of payment provided they are allocated as a general administrative expense to all activities of the governmental unit or component.

The Health Department expenses payments for unused vacation and personal leave when an employee terminates employment directly to the employee's "home" programs. However, these payments should be treated as a general administrative expense and allocated to all activities of the Health Department.

No adjustment will be made on the attached Statements of Grant Program Revenues and Expenditures because an accurate calculation could not be easily determined given the multiple programs likely receiving direct charges of termination costs, and the likelihood of no financial impact given the level of local funding.

#### Recommendation

We recommend that the Health Department implement policies and procedures to ensure termination costs are allocated as a general administrative expense to all activities of the Health Department.

#### MDCH SHARES OF COST AND BALANCE DUE

**Objective 3:** To determine the MDCH shares of cost for the WIC and Family Planning Programs in accordance with applicable MDCH requirements and agreements, and any balance due to or due from the Health Department.

**Conclusion:** The MDCH obligations under the WIC, WIC Breastfeeding and Family Planning Programs for fiscal year ended September 30, 2014, are \$397,492; \$47,771; and \$47,882; respectively. The attached Statements of Grant Program Revenues and Expenditures show the budgeted, reported, and allowable costs. The audit made no adjustments affecting grant program funding.

2

Finding:

**Improper Billings to Third Parties** 

The Health Department did not bill Medicaid at the total amount of

charges.

Recommendation:

Comply with the Michigan Title X Family Planning Program Standards

and Guidelines Manual and bill all third parties, including Medicaid, for

the total amount of charges.

**Comments:** 

The Health Department was unaware they could not bill Medicaid a lessor

amount than the total amount of charges.

**Corrective Action:** 

The Health Department will begin billing Medicaid the full charges. This

will not include medications, as we can only bill Medicaid for total cost of

the medication.

Anticipated

**Completion Date:** 

January 2016

Finding:

No Administration Approved Policy for Setting Family Planning

**Program Fees Lower Than Cost** 

The Health Department set their Family Planning Program fees below the cost with no administration approved policy designating the percentage of

the cost the fee schedule is to represent.

Recommendation:

Comply with the Michigan Title X Family Planning Program Standards and Guidelines Manual and implement an administration approved policy for designating the percentage of the cost the fee is to represent if the Health Department chooses to set fees lower than what is required to recover actual costs.

Comments:

The Board of Health (Board of Commissioners) reviews and approves any significant billing policies or procedures. The Board of Health approves a County wide fee schedule each year during the budget process which states; "Fees for the Community Health Programs listed above are reviewed on a regular basis and adjusted as necessary to maintain compliance with program and grant guidelines. A sliding fee scale is available for many of the clients and services that we provide. Consideration in this process includes cost of providing service (vaccine and supply cost), maximization of revenue by billing third party (insurance), affordability to clients, and compliance with applicable regulations. In many cases, fees are adjusted to ensure that county residents are not denied necessary services due to their inability to pay for the same." It has been accepted by our Board that we make changes to fees for services for our Community Health Programs during the year based on factors such as grant requirements, cost analysis, and third party payer allowed amounts.

Corrective Action: The Health Department will implement an administration approved policy

for designating the percentage of the cost the fee is to represent since the

fees are set lower than what is required to recover actual costs.

Finding:

**Excess Internal Service Fund** 

Grand Traverse County's Information Technology Internal Service Fund had a working capital reserve that exceeded the allowable amount as of

December 31, 2013 according to OMB Circular A-87.

Recommendation:

Grand Traverse County devise a plan to ensure the Information Technology Internal Service Fund working capital reserves is reduced to the allowable limit (60 days cash expenses) by FYE 2017 by either cash

refunds or adjustments to future billing rates/allocations.

**Comments:** 

None

**Corrective Action:** 

Grand Traverse County will reduce the charges from the Information Technology Fund to account for the excess working capital reserve that has been accumulated. This will be accomplished by the necessary adjustments to the amounts invoiced during our next two fiscal years (2016 and 2017) in order to bring the working capital reserve into compliance with OMB Circular A-87.

Finding:

Leave Time Allocation Based on Budgeted FTEs

The Health Department allocated leave time to the WIC and Family Planning Programs based on budgeted FTEs rather than actual time

worked in the Programs.

Recommendation:

Implement policies and procedures to ensure the leave time allocation

percentages are updated at least quarterly based on actual time worked so

leave time is equitably allocated to all benefiting programs.

Comments:

The Health Department has implemented updated FTEs on a quarterly

basis based on the actual time spent by each employee on each program.

The leave time is then allocated based upon the actual time the employee

works in each program on a quarterly basis.

**Corrective Action:** 

The Health Department started implementing the leave time based on

actual FTEs versus budgeted FTEs in May of 2015.

Anticipated

**Completion Date:** 

May 2015

Finding Number:

5

Finding:

**Termination Costs Improperly Reported** 

The Health Department improperly reported termination costs as a direct

expense on the FSRs.

Recommendation:

Implement policies and procedures to ensure termination costs are

allocated as a general administrative expense to all activities of the Health

Department.

**Comments:** 

The Health Department will start to implement the charge for payments

for unused leave when an employee retires or is terminated from

employment to our general administrative overhead cost center. The

termination cost will then be allocated as a cost to all programs within the

Health Department.

**Corrective Action:** 

The Health Department will start to implement this process with any

future employees leaving the Health Department and have termination

benefits.

Finding: <u>Improper Billings to Third Parties</u>

The Health Department did not bill Medicaid at the total amount of

charges.

**Recommendation:** Comply with the Michigan Title X Family Planning Program

Standards and Guidelines Manual and bill all third parties, including

Medicaid, for the total amount of charges.

Comments: The Health Department was unaware we could not bill Medicaid a

lessor amount than the total amount of charges.

**Corrective Action:** The Health Department will begin billing Medicaid the full charges.

This would not include medications, as we can only bill Medicaid

what we pay for the medication.

Finding: No Administration Approved Policy for Setting Family Planning

**Program Fees Lower Than Cost** 

The Health Department set their Family Planning Program fees below the cost with no administration approved policy designating the

percentage of the cost of the fee schedule is to represent.

**Recommendation:** Comply with the Michigan Title X Family Planning Program

Standards and Guidelines Manual and implement an administration approved policy for designating the percentage of the cost the fee is to represent if the Health Department chooses to set fees lower than what

is required to recover actual costs.

Comments: The Board of Health (Board of Commissioners) review and approve

any significant billing policies or procedures. The Board of Health approves a County wide fee schedule each year during the budget process which states, "Fees for the Community Health Programs listed above are reviewed on a regular basis and adjusted as necessary to maintain compliance with program and grant guidelines. A sliding fee scale is available for many of the clients and services that we provide. Consideration in this process includes cost of providing service (vaccine and supply cost), maximization of revenue by billing third

party (insurance), affordability to clients, and compliance with applicable regulations. In many cases, fees are adjusted to ensure that county residents are not denied necessary services due to their inability to pay for the same." It has been accepted by our Board that we make changes to fees for services for our Community Health Programs during the year based on factors such as grant requirements, cost

analysis and third party payer allowed amounts.

**Corrective Action:** The Health Department will implement an administration approved

policy for designating the percentage of the cost the fee is to represent since the fees are set lower than what is required to recover actual

costs.

# STATE OF MICHIGAN DEPARTMENT OF COMMUNITY HEALTH LANSING

OLGA DAZZO

August 8, 2012

RICK SNYDER

Dave Benda Grand Traverse County Administrator/Controller 400 Boardman Traverse City, MI 49684

Dear Mr. Benda:

I have received your communication requesting the approval of Wendy Trute, MPH, as the Health Officer for Grand Traverse County, to be effective August 31, 2012. After a review of Ms. Trute's credentials, I have determined she is fully qualified, under the Michigan Public Health Code, to be approved as the Grand Traverse County Health Department Health Officer. I congratulate you on the selection of such an educated and experienced candidate.

I look forward to continuing the positive working relationship between the Grand Traverse County Health Department and the Michigan Department of Community Health.

If you need assistance or if any of the above changes, please contact Local Health Services, at (517) 335-8928.

Sincerely,

Jean Chabut, Deputy Director Public Health Administration

ean Chalout

cc: Vere Pugh Konrad Edv

Konrad Edwards Jennifer Seman

### Wendy S. Hirschenberger, MPH, CPHA

Health Officer, Grand Traverse County Health Department 2600 LaFranier Ave, Traverse City, MI 49686 whirsch@gtchd.org 231-995-6101

#### **EXPERIENCE Grand Traverse County Health Department** 8/12- present Health Officer

**Traverse City, Michigan** 

- Serves as the chief administrative officer of the Public Health Department, assumes responsibility for all public health-related activities within the County, and supervises staff performing County public health functions.

- Establish operational methods and procedures; assist in departmental policy development; recommends the establishment and revision of rules and regulations;
- o Work closely with Board of Health, County Board, the local medical community, the public, the media, local, state and federal public health partners and other human service agencies to develop, maintain and improve the public health network in Rock Island County.
- o Direct the procedural analysis, standards development, research, and planning program of the department, prepare various statistical, financial, and special reports;

Attachment 8

## Minnesota Department of Health

Minneapolis, Minnesota

#### 4/01 - 8/03**Epidemiologist Senior**

- Serve as project officer for research studies where duties include: developing budgets and contracts, supervision and mentoring of study staff, planning and conducting rapid case ascertainment, and managing staff assignments to ensure effective resource utilization.
- Advise, educate and assist public health and allied health professionals, clinicians, researchers, policy makers, government officials, members of the media and the general public on issues regarding the burden of cancer in the state, cancer epidemiology, cancer control, the analysis and collection of data as well as legal and ethical issues surrounding public health disease surveillance.
- Design, execute and analyze detailed statistical studies of cancer incidence and mortality at the state, regional, county and small area levels.
- Plan, design and conduct quality control studies to investigate data quality and accuracy of cancer data and to ensure consistency in data and information provided to data users.
- Design and produce legislative reports, special study reports and quality control reports on cancer in Minnesota.
- Plan and conduct record linkages for epidemiologic studies in collaboration with physicians, state, national and international medical researchers, public health professionals and citizens.

#### **University of Minnesota- Division of Epidemiology Project Manager/Study Coordinator**

Minneapolis, Minnesota

#### 5/00 - 4/01

- Managed daily activities of a large cohort study including data collection, budget, contracts and supervision of staff.
- Developed project plans, provided direction to project teams and coordinated overall project activities.
- o Drafted and negotiated contract agreements with subcontractors including budget, timeline and scope of work.
- Designed and developed surveys, study fact sheets, presentations, study materials and tobacco policy website.
- Managed subcommittee activities relating to survey development, geo-political units, data analysis, project management and local level data collection.
- Designed and developed databases for data collection and information management.
- Provided software support for users of proprietary program evaluation software and assistance with databases.

#### **Universal Pensions, Inc. (Bisys) Project Manager/Business Analyst**

Brainerd, Minnesota

#### 3/98 - 8/00

- Developed project plans, provided direction to project teams and managed software development staff assignments to ensure effective resource utilization.
- Drafted and negotiated software license agreements in conjunction with Legal Council for both standard and custom applications of products.
- Developed marketing and sales materials, researched trademark/patent issues, assessed marketability of products and provided technical sales support.
- Developed and maintained project documentation including: product vision and scope, business analysis, technical and design specifications, team status reports and RFP responses.
- Produced statistical analyses, summary reports and presentations of company survey results.

### **Washington State Department of Health**

Olympia, Washington

#### 8/96 - 12/97

**Health Program Administrator** 

- Managed all aspects of state cancer registry activities including: cancer control activities, quality assurance, data collection and analyses, budget and fiscal monitoring, personnel and grant proposals and annual/quarterly reports.
- o Supervised and mentored staff of eight and managed staff assignments to ensure effective resource utilization.
- o Reviewed, designed and conducted research and statistical analyses of incidence, mortality and other cancer measures to evaluate Washington cancer trends.
- Planned, designed and conducted quality control studies to assess completeness, timeliness and accuracy of registry data to ensure consistency of data and information provided to end users.
- o Participated in division-wide epidemiology assessment group; assisted in writing public health plans, department-wide reports; consulted on state health assessments and surveillance activities for diabetes, heart disease and injuries.
- Assisted with database linkages, geo-coding, GIS mapping, data requests and educational training.
- Acted as liaison for state cancer registry to statewide advisory council, technical working group, Fred Hutchinson Cancer Research Center, Blue Mountain Oncology Group and other state groups.
- Developed and secured reporting agreements and contracts with health care facilities, labs and cancer treatment centers in accordance with state and national laws.

### Idaho Hospital Association /Idaho Cancer Data Registry

Boise, Idaho

#### 4/95 – 8/96

**Epidemiologist** 

- o Design, execute and analyze detailed statistical studies of cancer incidence and mortality at the state, regional, county and small area levels.
- o Plan, design and conduct quality control studies to investigate data quality and accuracy of cancer data and to ensure consistency in data and information provided to data users.
- Advise, educate and assist public health and allied health professionals, clinicians, researchers, policy makers, government officials, members of the media and the general public on issues regarding the burden of cancer in the state, cancer epidemiology, cancer control, the analysis and collection of data as well as legal and ethical issues surrounding public health disease surveillance.
- Design and produce legislative reports, special study reports and quality control reports on cancer in Idaho.
- Plan and conduct record linkages for epidemiologic studies in collaboration with physicians, state, national and international medical researchers, public health professionals and citizens.
